*The American Commonwealth, Vol. 3 of 3* James Bryce, 2018-03-22 Excerpt from The American Commonwealth Vol 3 of 3 Public Opinion Illustrations and Reflections Social Institutions States very few men of good standing belong to the Republican party which consists of the lately enfranchised negroes of a certain number of whites seldom well regarded who organize and use the negro vote and who some twenty years ago were making a good thing for themselves out of it of Federal officials who have been put into Federal places by their friends at Washington on the understanding that they are to work for the party and of a certain number of stray people perhaps settlers from the North who have not yet renounced their former affiliations It is not easy for an educated man to remain a Republican in the South not only because the people he meets in society are Democrats but because the Republican party managers are apt to be black sheep About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

**The American Commonwealth, Vol. 2 of 3** James Bryce, 2017-10-19 Excerpt from The American Commonwealth Vol 2 of 3 The State Governments the Party System The American State is a peculiar organism unlike anything in modern Europe or in the

ancient world The only parallel is to be found in the cantons of Switz erland the Switzerland of our own day for until 1815 if one ought not rather to say until 1848 Switzerland was not so much a nation or a state as a league of neighbour commonwealths But Europe and partien larly England so persistently ignores the history of Switzerland that most instructive patent museum of politics apparently only because she is a small country and because people go there to see lakes and to climb mountains that I should perplex instead of enlightening the reader by attempting to illustrate American from Swiss phenomena Let me attempt to sketch the American States as separate political entities forgetting for the moment that they are also parts of a Federation About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
