The Vibrational Matrix Manhiel Marthin, 2025-03-11 This book represents a profound journey into understanding the fundamental mechanisms through which our reality is constructed Its content introduces us to a revolutionary perspective in which consciousness emerges as the primordial element shaping the universe we experience The work meticulously explores how every thought emotion and action acts as a vibration that influences the very fabric of existence Through quantum principles and universal vibrational laws it reveals how our perceptions and beliefs shape not only our personal reality but also the collective one One of the most profound aspects of the book is its explanation of how vibrational frequencies interact and intertwine creating patterns that give rise to what we perceive as physical reality This transformative understanding allows us to glimpse the inherent power we possess to consciously shape our world The text delves into fundamental concepts such as universal interconnectedness the vibrational nature of matter and energy and the crucial role intention plays in manifesting reality These ideas challenge our traditional understanding of the physical world and invite us to expand our perception beyond conventional boundaries

Experiential Consciousness and the Nature

of Human Identity Vitor Jose F. Rodrigues, 2022-12-13 Consciousness is hard to bring to the laboratory as it confronts us with a classic dilemma can a mind observe itself However who then is observing the observer Without experiential awareness culture the arts science and philosophy would not make sense Would it make sense if refrigerators were to produce a refrigerator culture without the experience of freezing food Virtually all human culture is destined to provide conscious experiences This volume provides a rich array of views on human nature and the way it shows up in the strange land of human identity *Handbook for Theory, Research, and Practice in Gestalt Therapy (2nd Edition)* Philip Brownell, 2019-04-03 This is a true second edition so much so that it approaches being a different book It includes among its new authors some of the most sought after theorists in contemporary gestalt therapy There is a section on the philosophy of science research and research methodology and one devoted to gestalt therapy and its teaching and research in diverse parts of the world There is disagreement and critique for this is not a simple book It is so packed with information that it serves as both a challenge and a resource This second edition of the Handbook will take its place as an aid in understanding the evolution of contemporary gestalt therapy and as a guide to the evolving research tradition in gestalt therapy It rightfully belongs on the shelves of both beginning trainees in gestalt therapy and advanced and experienced practitioners and certainly represents a resource for practitioner researchers involved in practice based research *Neochamanismos en España* Maria Albert Rodrigo, 2019-09-11 Hoy es una obviedad que el pronóstico de la ilustración conocido como el desencantamiento del mundo en el que en la Modernidad se configurarían unas sociedades sin religiosidad no se ha cumplido Más bien lo que ha sucedido es un nuevo encantamiento de la realidad un hallazgo inesperado del sentido de lo sagrado en medio de un mundo completamente tecnificado con la emergencia proliferante de una gran variedad de nuevas formas religiosas Entre ellas en este volumen destacamos el chamanismo Más concretamente los neochamanismos como uno de los nuevos desarrollos espirituales a partir de la recuperación de nuestra relación ancestral con la Naturaleza y que busca en los orígenes el acceso a una religión primigenia conservada por algunos pueblos indígenas A partir de un profundo trabajo de campo focalizado en el caso valenciano se investigan las distintas corrientes chamánicas que han llegado a tierras españolas desde una perspectiva cronológica en la que se pueden distinguir distintas fases en este proceso de llegada asentamiento y reconfiguración neochamánica **La nostalgia de los orígenes** Joan Prat, 2018-12-13 El gran mito del origen de Occidente es el libro del Gnesis que narra la creación del mundo y de la humanidad con énfasis en tres momentos críticos la armonía y plenitud de la existencia paradisíaca original la desobediencia y caída y finalmente la posibilidad de recuperar el paraíso perdido La nostalgia de los orígenes muestra que existen cuatro grandes vías para retornar a dicho origen la senda chamánica que persigue fusionar los diferentes mundos y planos en la persona del chamán la vía gnóstica que es la senda del conocimiento esotérico que conduce a la completitud de los inicios la vía monástica que es la que busca la salvación a través de la ascesis y la renuncia y la vía mística que es la que se centra en la unión con lo Absoluto o lo Divino A pesar de las aparentes diferencias entre el chamán el gn

stico el monje y el mstico Prat nos muestra cmo estas figuras persiguen el mismo objetivo revivir aquella edad de oro y plenitud inicial La metodolog a utilizada combina hbilmente los aspectos te ricos con el trabajo de campo antropol gico presentado a trav s de microetnograf as y experiencias participantes El presente texto es la culminaci n de los intereses te rico etnogr ficos que han animado las investigaciones de toda la vida del autor **Ayahuasca. Il rampicante del fiume celeste** Claudio Naranjo,2014 La llamada del r o JOSEPH TAFUR,2019-05-20 La medicina occidental no ha tenido mucho xito a la hora de aliviar afecciones como la depresi n el dolor cr nico las migra as la adicci n o el TEPT trastorno por estr s postraum tico El doctor Tafur nos ayuda a entender por qu La gente pasa a os frustrada invirtiendo grandes cantidades de dinero consultando a un gran n mero de especialistas sin obtener alivio real a su problema porque stas y otras son enfermedades que est n profundamente relacionadas con el estado de nuestros cuerpos emocionales Con demasiada frecuencia el enfoque m dico occidental no aborda la dimensi n emocional de la enfermedad Aqu es donde la medicina tradicional de las plantas con su capacidad de alterar la conciencia y abrir canales de comunicaci n a nuestras emociones ofrece alternativas reales Sigue al doctor Tafur a trav s de la selva del Amazonas mientras desarrolla un conocimiento profundo de cmo las plantas psicoactivas interact an con la compleja red que conecta nuestras mentes y corazones con nuestra anatom a f sica Lo que aqu se presenta es un cambio de paradigma para la medicina moderna donde las plantas sagradas utilizadas adecuadamente en las ceremonias ocupan su lugar como herramientas importantes en el botiqu n del m dico y ofrecen los elementos carentes de curaci n emocional y espiritual que nos han eludido durante tanto tiempo
