 Their popularity compels us to take them seriously This book studies one such program Al Anon which was founded in 1951
 by wives of alcoholics who were struggling with the effects of alcoholism on themselves and their families In the 1990s its
 scope was broadened to include husbands grown children lovers friends and anyone else affected by another's drinking or
 chemical use This study used an ethnographic approach it reveals that Al Anon and similar groups act as sites of spiritual
 renewal and moral reconstruction for primarily white middle class middle aged Protestant Americans who report
 experiencing a crisis of identity Investigating Twelve Step Programs lends further insight into the cultural crisis affecting

The book provides the necessary conceptual foundational frameworks for exploring how practitioners in a field of alternative medicine/holistic health know what they know in support of their work. These core ways of knowing give them a foundation for evaluating their work, new advances in the field, and affords them interrelated frames of knowledge for their continued research expansion and integrative work in the field. Trained holistic health practitioners who may have applied one or more of these paradigms may now be able to expand their foundational and conceptual base, thereby broadening their theory and techniques that are appropriate to their professional arenas. Section I is designed to explore general ways of knowing and meaning-making in holistic health. Section II is designed to offer the reader practitioner methodology regarding the creation and implementation of holistic health centers, programs, and integrated consultation practices. Finally, Section III offers examples of integrative holistic health clinicians who combine and synthesize a variety of holistic health approaches and paradigms into their practices as practitioners, healers, therapists, and consultants.
