Jim Collins, 2026-04-07 Jim Collins international bestselling author of Good to Great offers transformative lessons on

constructing and reconstructing a life through the cliff moments and transitions we all will face repeatedly in our lives What

to make of a life It is a question we all wrestle with more than once How do we find our way in the world How do we make it

past the cliffs significant events that can radically change a life How do we keep the inner fire burning bright long and late

Inspired by relentless curiosity Jim Collins devoted a decade to studying these questions and to minutely analyzing those

moments when life flips from clarity to confusion and casts us into a befuddling fog His exploration follows various lives side

by side paired together at cliffs and analyzes the different choices made and divergent paths taken Two rock musicians

confronting a future without the group that had brought them success Two public figures tainted by scandal having to make

decisions about how to rebuild their lives Two suffragists achieving their epic goal and so left with the puzzle of what to do

next Two figure skaters seeking new purpose when their Olympic careers come to an end What emerges from Collins s

extensive studies of writers actors scientists leaders and many others is a framework for understanding how individual lives

can be built sustained and constantly renewed By examining the long arc of these remarkable lives Collins tackles life s

questions What does it take to Discover a deeply fulfilling role in life one that you are naturally encoded for and then to find a

second one if the first one ends Overcome a major cliff a fracture point that forces choices about what s next and calls for you

to re envision the years to come Make your personal economics work so that you can focus on one big thing that feeds your

inner fire Navigate the fog when you feel uncertain or even outright lost and build confidence step by step Build personal

momentum decade upon decade so that your most creative and energetic years are spread across an entire lifetime Achieve the imperative to Know Thyself and apply self knowledge to each phase of life And for the first time Collins movingly chronicles his own story to reveal how undertaking this project transformed him changing his thinking and reshaping his emotions in fundamental ways Surprising story driven deeply researched and uplifting What to Make of a Life is a book like no other convincingly showing how a richly fulfilled life is within reach of us all
