Rising China's Influence in Developing Asia Evelyn Goh,2016 How powerful is China Is China powerful enough to change the world This book distinguishes between China's obviously growing economic political and military resources and how they are translated into actual influence over other states choices and policies It investigates China's influence on the small and weak developing countries in East and South Asia where China ought to have the biggest influence It shows that China tends to try to gain the support of these countries without forcing them to change their preferences or to act against their own interests but how much it succeeds is determined more by how these target countries policy makers react and by their domestic political considerations than by how skilful Chinese politicians or investors are China's influence even over these weakest
