[Bodyguard Manual](#) Leroy Thompson, 2005 Although military operations against terrorist forces often garner the headlines, those who protect government, military and business leaders from assassination or kidnapping are also in the front lines against terrorism. Ready and prepared to place his body between his employer and a bullet, the bodyguard must be able to blend into the milieu around his charge yet be ready to spring into action instantly to counter an attack. Based on techniques of the U.S. Secret Service, U.S. State Department Security, the Special Air Service, the Royal Corps of Military Police, the Metropolitan Police, the KGB and its successor, the FSB, France's GSPR and other protective units around the world, The Bodyguard Manual details the steps a protective team takes to prevent attack as well as the tactics which are employed when it is necessary to counter an attack in progress. From security aboard Concorde, the Orient Express or the Queen Elizabeth 2 to protecting a military general officer in combat, The Bodyguard Manual allows the reader to stand post with the professional bodyguard.

[Publications Stocked by the Marine Corps \(indexed by Distribution\)](#), 2001 [Modern American Extremism and Domestic Terrorism](#) Barry J. Balleck, 2018-06-01 Highlighting a breadth of American individuals and groups that engaged in extremist behavior across history, this book provides a succinct, concise overview of extremist behavior in the past and examines today's increasingly common incidences of hate and extremism. Since the election of Barack Obama in 2008, extremist and hate groups have seen a resurgence on the American political landscape. Members of these subgroups within the American population have become concerned that the America that they have always known is fading into oblivion, with a majority of individuals in these groups holding fiercely anti-immigration views and adhering to the belief that the United States should not admit large numbers of any group that is not white, Christian or predominantly European. Others believe that the principles and precepts of the U.S. Constitution have gone by the wayside and that drastic measures are required to protect the underlying tenets that were the essential elements of

the Constitution and many of their nation's founding principles. How did these individuals come to feel this way? Is it possible to bring these impassioned extremists back into the fold and, if so, how? This book provides comprehensive, illuminating and sometimes disturbing insights into the individuals, groups and events that have illustrated extremist behavior in post World War II America. Ranging from the anti-communist rhetoric and activities of the John Birch Society to the radical socialist ideals of the Black Panthers to the goals of a pure America articulated by white nationalists, this book documents the various extremist elements that shaped the second half of the 20th century as well as the first two decades of the 21st century. Readers will grasp how events in the histories of individuals and groups as well as perceived injustices have lead to the incidences of hate and extremism in American society. The encyclopedic entries of the book are specifically written to be accessible to readers without specific knowledge of extremism, political science or sociology. *Women & Guns*, 2005

Jane's Infantry Weapons, 2001 *The Docket*, 1991 **Twenty Years of School-based Mass Shootings in the United States** Angelyn Spaulding Flowers, Cotina Lane Pixley, 2020-10-05 Twenty Years of School-based Mass Shootings in the United States: Columbine to Santa Fe is an examination of twenty years of school-based mass shootings from Columbine to Santa Fe, exploring the larger environmental framework within which these incidents occurred. Angelyn Spaulding Flowers and Cotina Lane Pixley use a mixed methods approach to examine a diverse set of factors identifying risk and protective factors along with specifically desired public policy responses by evaluating the convergence of variables from the range of school-based mass shootings included in this study. These variables include the type of weapon used, the availability of that type of weapon, perpetrator characteristics, school characteristics as well as the geospatial and demographic characteristics of the school neighborhood. These school-based mass shooting incidents are explored at both the state and regional level and are further discussed in comparison to leisure time gun use, homicide rates and suicide rates in the geographical area. The overarching geospatial analytical framework for this research also includes an examination of the manner in which existing policy enactments such as state gun laws vary by geography. Spaulding Flowers and Lane Pixley argue that the increased number of fatalities in school-based mass shooting is largely due to the increased lethality of the weapons and they propose alternative solutions. Scholars of criminology, sociology, political science and history will find this book particularly useful.
