**Doing Bad by Doing Good** Christopher J Coyne, 2013-05-01 An economics focused analysis of why humanitarian relief efforts fail and how they can be remedied In 2010 Haiti was ravaged by a brutal earthquake that affected the lives of millions The call to assist those in need was heard around the globe Yet two years later humanitarian efforts led by governments and NGOs have largely failed Resources are not reaching the needy due to bureaucratic red tape and many assets have been squandered How can efforts intended to help the suffering fail so badly In this timely and provocative book Christopher J Coyne uses the economic way of thinking to explain why this and other humanitarian efforts that intend to do good end up doing nothing or causing harm In addition to Haiti Coyne considers a wide range of interventions He explains why the US government was ineffective following Hurricane Katrina why the international humanitarian push to remove Muammar Gaddafi in Libya may very well end up causing more problems than prosperity and why decades of efforts to respond to crises and foster development around the world have resulted in repeated failures In place of the dominant approach to state led humanitarian action this book offers a bold alternative focused on establishing an environment of economic freedom If we are willing to experiment with aid asking questions about how to foster development as a process of societal discovery or how else we might engage the private sector for instance we increase the range of alternatives to help people and empower them to improve their communities Anyone concerned with and dedicated to alleviating human suffering in the short term or for the long haul from policymakers and activists to scholars will find this book to be an insightful and provocative reframing of humanitarian action Praise for *Doing Bad by Doing Good* Coyne is to be congratulated for a book that strongly calls into question the conventional wisdom that we must look first to government to accomplish humanitarian ends George Leef Regulation Magazine Coyne attempts to explain why conventional approaches to humanitarian aid and longer term economic development have failed miserably Recommended M Q Dao Choice Coyne offers a classic neo liberal economic analysis to explain why the humanitarian project in its current state is doomed Zoe Cormack Times Literary Supplement

focus on organizational mission and its potential to be a strong energizing force in government one that animates a workforce internally and attracts admiration and talent externally He offers a normative template for the mystique that underlies this phenomenon and highlights in six rich case studies a driving sense of purpose a cultural and motivational richness and a capacity for tolerating dissent while still innovating and learning Analyzing what works best and what doesn't Goodsell provides a metric through which agency mystique can be evaluated and modeled Goodsell's fresh take on public agencies not only defines good public administration in terms of ethical conduct constitutional accountability and performance effectiveness but argues that the field must add the crucial standard of institutional vitality      **Public**
