Burma In Revolt Bertil Lintner, 2019-04-24 This book explains how Burma's booming drug production insurgency and counter insurgency interrelate and why the country has been unable to shake off thirty years of military rule and build a modern democratic society    Burma in Revolt Bertil Lintner, 1999-05-01 In 1948 Burma was a promising young democracy with a bustling free market economy and a standard of living that surpassed nearly all of its other Asian neighbours Fifty years later Burma is one of the poorest nations in the world with a military dictatorship in Rangoon and 50 000 armed rebels from a myriad of ethnic insurgency groups In this well documented and detailed account well known Burma journalist Bertil Lintner explains the nexus between Burma's booming drug production and its insurgency and counter insurgency providing an answer to the question of why Burma has been unable to shake off thirty five years of military rule and build a modern democratic society Lintner's lively account is interspersed with numerous anecdotes gleaned from personal research and interviews Individuals are given features and personality in the complicated jigsaw of Burma's modern history Beginning with the shock of Aung San's murder in 1947 Lintner retraces events from the 1920s that led to this disastrous event and continues his narrative up to the present navigating the reader through webs of intrigue involving power politics and drugs Key players are the Rangoon government the ethnic resistance the Communists the Kuomintang and the US government This revised and updated edition includes five extensive appendixes for serious readers and Burma scholars alike a list of acronyms a chronology of events a who's who of important figures in Burma's insurgency an annotated list of rebel armies and biographical sketches of the Thirty Comrades Bertil Lintner one of Burma's Myanmar's closest and most incisive observers has written an important book It is more than a study of the drug trade and the minority rebellions It is in a sense a history of Burma since independence No one concerned with Burma with Southeast Asia or with international narcotics affairs can neglect this work David I Steinberg Georgetown University    *Encyclopedia of Modern Ethnic Conflicts* Joseph R. Rudolph Jr., 2015-12-07 An indispensable reference that will help students understand the major ethnic conflicts that dominate the headlines and shape the modern world Since World War II significant conflicts have most often taken the form of acts of violence between ethnic or national communities inside individual states This two volume work uses case studies to explore some four dozen of those conflicts making it an ideal first stop reference for students and others who wish to quickly gain an understanding of ethnic struggles Content from the first edition is updated and new entries on recent conflicts have been added The set's geographical range which encompasses nearly every continent is matched by the diversity of the conflicts explored These include internal conflicts such as those experienced by African Americans in the United States and Muslims in France as well as separatist movements of groups like the Chechens in Russia and Bosnians in Yugoslavia Headline making conflicts for example those in Mali and Syria are covered as well The book is organized alphabetically by country and region Each essay begins with a timeline and then explores the historical background evolution efforts to

manage and significance of the conflict Suggestions for follow up research and appendices of relevant primary source materials are also included **Opium's Orphans** P. E. Caquet,2022-07-06 Upending all we know about the war on drugs a history of the anti narcotics movement s origins evolution and questionable effectiveness Opium s Orphans is the first full history of drug prohibition and the war on drugs A no holds barred but balanced account it shows that drug suppression was born of historical accident not rational design The war on drugs did not originate in Europe or the United States and even less with President Nixon but in China Two Opium Wars followed by Western attempts to atone for them gave birth to an anti narcotics order that has come to span the globe But has the war on drugs succeeded As opioid deaths and cartel violence run rampant contestation becomes more vocal and marijuana is slated for legalization Opium s Orphans proposes that it is time to go back to the drawing board *Burma's Military Secrets* Desmond Ball,1998 *The Palimpsest Constitution* Melissa Crouch,2025-09-29 Since the mid 20th century many postcolonial states have engaged in multiple constitution making exercises with the turnover in written constitutions often due to coups or internal conflict Conversely people have resisted authoritarian rule through alternative constitution making The reality that most countries have had numerous official and unofficial constitutional texts begs the question How do past constitutions matter in the present This volume explores the social life of constitutional legacies or how past constitutions matter Using the case of Myanmar Professor Crouch demonstrates that constitutions are a palimpsest of past texts ideas and practices an accumulation of contested legacies Through constitutional ethnography it traces Burma Myanmar s modern constitutional history from the late colonial era through its postcolonial socialist and military regimes The Palimpsest Constitution captures the idea that contemporary debates about constitutional reform are informed by the contested legacies of the past In Myanmar the military insists on the endurance of its 2008 Constitution while pro civilian actors resist military rule through alternative constitution making endeavours Offering a sociological view of constitutional endurance the book demonstrates how the social life of constitutions is central to the struggle for constitutional democracy and civilian rule in Myanmar **Merchants of Madness** Bertil Lintner,Michael Black,2009-01-05 For decades Southeast Asia s Golden Triangle where the borders of Thailand Laos and Burma intersect has been infamous for its opium and heroin production But then in the 1990s the drug gangs in the Golden Triangle began to produce methamphetamine a synthetic drug that does not depend on any unreliable crop such as the opium poppy In Thailand the drug has become known as yaba madness drug or madness medicine Unlike heroin which is a downer yaba or speed is an upper that makes those who take it hyperactive and often aggressive It has led to murders stabbings and the kidnapping of innocent people It breaks down the users mentally as well as physically It is a real madness drug But who are the merchants of this madness This book provides the answer It is based on extensive research spanning several decades and including a collection of first hand accounts of the drug trade from law enforcement officers and intelligence officials alike as well as sources close to the drug traffickers themselves This book will lead to a better

understanding of the Golden Triangle drug trade how it all began and how it has grown to become a multi billion dollar criminal enterprise    **General Ne Win** Robert Taylor,2015-05-25 Robert Taylor one of the most prominent scholars in Myanmar studies has written an illuminating study of Ne Win the most enigmatic and controversial of the first generation of post independence Southeast Asian leaders and how he steered a then largely unknown country Burma now Myanmar through the Cold War years This book by perhaps the only foreign political analyst to live in Burma under Ne Win is a significant contribution to the historiography of Myanmar and its unnoticed role in the Cold War in Asia Associate Professor Ang Cheng Guan Head of Graduate Studies S Rajaratnam School of International Studies Nanyang Technological University Singapore This book fills a major gap in the literature on Myanmar by providing the first scholarly account of the life of General Ne Win its enigmatic ruler for over 25 years It will be of interest not only to professional Myanmar watchers who have long awaited a detailed and comprehensive study of this important historical figure but to anyone who wants to learn more about this troubled Southeast Asian country where Ne Win s legacy is still being felt today Andrew Selth Adjunct Associate Professor Griffith Asia Institute The Colonel Ne Win of World War II and General Ne Win of post independent Myanmar was not the same as Chairman Ne Win of the BSPP Nor was the context of those days similar to the context by which he is normally judged today The present work and Taylor s scholarship in general is acutely aware of such anachronistic projections backward made to commensurate with certain desired academic and political consequences Taylor examines Ne Win s life and career in the context of when it occurred This book returns Ne Win to the period to which he belonged Michael Aung Thwin Professor of South East Asian History University of Hawaii It is difficult to imagine that this study of Ne Win the dominant figure in the politics of Burma through most of the second half of the twentieth century will ever be surpassed Immensely detailed insightful and impressively understanding this is an outstanding work of scholarship Ian Brown Emeritus Professor of the Economic History of South East Asia School of Oriental and African Studies London

**The State in Myanmar** Robert H. Taylor, 2009-02-28 Statecraft in Myanmar previously referred to as Burma has a lineage going back ten centuries or more While the state today is expected to provide many other services for a vastly larger population than were its pre modern predecessors its basic functions of maintaining order controlling economic distribution and ensuring the perpetuation of itself and its elite managers remain much the same The tools available now to do so may be different and the challenges it faces may have grown but the issues it addresses would be familiar to the predecessors of the modern rulers of Myanmar Myanmar with its estimated population of about 55 million the 24th largest country in the world is larger than England With a territory as big as Texas it is wedged between the two of the oldest civilizations and now dynamic economies on the globe India and China Having been influenced by both India and China for centuries Myanmar has developed its own cultural distinctiveness in contrast with its near neighbors in Southeast Asia especially Thailand Laos Cambodia and Vietnam Once governed as a British Indian province Myanmar emerged from the colonial era and the Second World War an economically devastated but strongly nationalistic socialist state Riven since independence by armed ethnic and ideological conflicts that lasted most of the years between 1948 and the 1990s when ceasefire agreements were reached with multiple insurgent armies Myanmar's little studied politics contain elements common to many countries However in few have the complexity of forces historical and contemporary religious and secular foreign and indigenous come together in one place to create so many little understood and seemingly irresolvable political issues The State in Myanmar attempts to draw the complex history of state making and state perpetuation in Myanmar in one volume The social and economic forces as well as international and domestic issues which have made Myanmar one of the poorest and least understood Asian countries are discussed The efforts of Myanmar's kings British colonial officials nationalist politicians socialist ideologues and army generals to preserve the state in Myanmar is a history worth attempting to understand on its own terms

knows this territory well In Blood Brothers he takes the reader inside the criminal fraternities of Asia and the Far East from Russian gangsters and Japan's yakuza to Taiwan's United Bamboo Gang and the Vietnamese Triad In examining these networks Lintner seeks to answer the question How are civil societies all over the world to be protected from the worst excesses of increasingly globalised mobsters This is investigative journalism at its best and most relevant **Burma's North Korean Gambit** Andrew Selth,2004 **Myanmar** Monique Skidmore,Trevor Wilson,2007 Despite deteriorating economic and developmental conditions worsening environmental problems and troubles arising from the unresolved status of its ethnic minorities Myanmar seems no closer to a political resolution Myanmar's economy continues to stagnate with severe implications for its people Low levels of international assistance have exacerbated the situation Myanmar the state community and the environment examines the missed opportunities by government and opposition groups to find a way out of the political impasse and improve the standard of living of the people of Myanmar This collection provides insights into the country's economic development in particular the vital rice marketing sector and the attempts to expand existing industrial zones It focuses for the first time on Myanmar's environmental governance with in depth case studies and on the increasing need for effective environmental protection and sustainability **The Asia-Pacific Magazine** ,1997 **Asian Survey** ,2007
