**Getting Skills Right: United Kingdom** OECD,2017-11-20 This report identifies effective strategies to tackle skills imbalances in the United Kingdom

**Austerity Policies** Peter Rushton,Catherine Donovan,2018-06-12 This book takes up the problems of social policy state intervention and support in the hard times of austerity introduced by the Coalition government 2010 15 and continued under the Conservative government today At a time when the economy is growing and pay levels finally rising the necessity for more cuts in public expenditure is fiercely contested The scope of state services the levels of support for people in need and the kinds of organizations that will deliver the services will all be profoundly affected in coming years The authors and editors assess some of these consequences visible now in the impact that expenditure cuts and reorganization have had on many areas of social policy and explore the direction of change in the near future Austerity Policies evaluates a wide range of changing form of state services and the transformations involving both the recipients and those delivering the services It considers the past present and future of austerity as a policy and the problems affecting particular groups such as offenders looked after children and professionals such as social care workers and those engaged with domestic violence The collection will be of interest to students and scholars of social policy criminology sociology politics and media studies

**Nursing Times, Nursing Mirror** ,1993

**De-Professionalism and Austerity** Nigel Malin,2020-02-05 Austerity s impacts on the healthcare social care and education professions are under the spotlight in this important book From scarcer resources to greater stresses and falling training budgets to rising risks it charts how policies and cuts have compromised workers ability to undertake their professional roles It combines research and practice experience to assess the extent of de professionalisation in recent years and how workers have responded This book is a vital review of how austerity has resculpted our notions of professionalism

**Widening University Access and Participation in the Global South** Edward Mboyonga, 2024-12-31 Using a capability approach as an analytical framework this timely volume examines how access to higher education enabled through private universities can transform students lives and contribute to human development in low income countries in the Global South Providing new insights into the contribution of the private higher education sector in Africa s developmental agendas the book offers an alternative to human capital theory by offering an expansive notion on the value of higher education emphasising both the economic and the intrinsic societal and social benefits that come from access to university and raised aspirations The chapters identify and discuss six specific capabilities valued by students that higher education provides This includes epistemological access epistemic contribution aspiration recognition respect and belonging Ubuntu and employability The book foregrounds the voices of students and lecturers to explore students aspirations agency access and participation Ultimately promoting a reconsideration of access to higher education beyond numerical terms by focusing on students access to transformative knowledge as means to promote their freedom to achieve well being the book will appeal to scholars researchers and postgraduate students in higher education African education studies and international and comparative education more broadly

**Routledge International Handbook of Nurse Education** Sue Dyson, Margaret McAllister, 2019-11-26 While vast numbers of nurses across the globe contribute in all areas of healthcare delivery from primary care to acute and long term care in community settings there are significant differences in how they are educated as well as the precise nature of their practice This comprehensive handbook provides a research informed and international perspective on the critical issues in contemporary nurse education As an applied discipline nursing is implemented differently depending on the social political and cultural climate in any given context These factors impact on education as much as on practice and are reflected in debates around the value of accredited programmes and on the job training apprenticeship undergraduate and postgraduate pathways into nursing Engaging with these debates amongst others the authors collected here discuss how through careful design and delivery of nursing curricula nurses can be prepared to understand complex care processes complex healthcare technologies complex patient needs and responses to therapeutic interventions and complex organizations The book discusses historical perspectives on how nurses should be educated contemporary issues facing educators teaching and learning strategies the politics of nurse education education for advanced nursing practice global approaches and educating for the future Bringing together leading authorities from across the world to reflect on past present and future approaches to nurse education and nursing pedagogy this handbook provides a cutting edge overview for all educators researchers and policy makers concerned with nurse education
