Business June 2013 Grade 11memorindam:

Perspectives of Five Kuwaiti Women in Leadership Roles Souad T. Ali, 2019-05-28 The advances made in women's issues in the Gulf State of Kuwait during the last sixty years have been widely commented upon but limited academic research has been published on their material effects. In 2005 Kuwaiti women received the right to both vote and to run in elections to Parliament the first women in the conservative Arab Gulf bloc to do so. This book presents five remarkable women leaders in Kuwait including one of the first elected Kuwaiti female Members of Parliament an art advocate and museum founder a national hero and oil industry leader a university founder and a current controversial MP. In intimate conversations with the author they share their thoughts on topics such as gender relations and equality the current women's rights movement the role of religion in politics and education and female leaders' visibility and impact. Their different backgrounds interpretations of Islam and outlooks on the future of their country combine to embody the changes involving women's issues in Kuwait that have occurred since the mid twentieth century. Even as Muslim feminists critique creates new arenas in Islamic theology and stridently conservative forms of Islamism become increasingly visible in the public space the material effects of the advances in women's issues in Kuwait have received little academic attention until now. A book that both complicates and contributes to understandings of women, Islam and social change this important work will be of great interest to scholars in religious studies women's and gender studies and Middle Eastern studies as well as reformers throughout the region who continue to find inspiration in Kuwait's Blue Revolution.
