Labyrinths Of Voice:

Labyrinths of Voice Robert Kroetsch, Shirley C. Neuman, Robert Wilson, 1982 **Labyrinths - Voice - Blind Time** Castelli - Sonnabend (New York), 1974 **Fulbright Labyrinths** Virginia Hall-Milhouse, 2011-11-28 In this provocative work Virginia Milhouse demonstrates how autoethnography combines creative and analytical practices to help bring to consciousness some complex social and political agendas hidden in narratorial writings It demonstrates how an arts based qualitative research method narrative inquiry can be fused with a scientific based quantitative method DMIS IDI and compliment support and or correct each other It also demonstrates how writing as a method of inquiry can be a viable way for researchers to learn about themselves and their research as well as features standards for evaluating creatively and analytically constructed text Further the author s examination of the aesthetics of inner readiness and in betweenness will be very helpful to people doing this kind of self reflexive fieldwork The reader will also appreciate this author s recognition of the importance of combining qualitative and quantitative methodologies something not many writers can do with great success Also this book will be a real contribution to sojourners and others traveling or living abroad The work is very smart and is beautifully and clearly written The labyrinth quote at the beginning of her work is very fitting and certainly promises to illustrate those words *Labyrinths-voice-blind Time* Robert Morris, 1974 *Robert Kroetsch and His Works* Ann Munton, 1992-08 A study of Canadian novelist poet and non fiction writer Robert Kroetsch *Labyrinths of Language* Wendy B. Faris, 1988 *Canadian Writers and Their Works* Robert Lecker, Jack David, Ellen Quigley, Donald Wilfred McLeod, 1983

Lynda Benglis Susan Richmond, 2015-03-13 In four decades of abstract art practice Lynda Benglis has not merely challenged the status quo She has tied it in knots melted it down and poured it across the floor cast it in glass clay and bronze Daring and sometimes outrageous her intense and provocative practice has produced some of the most iconic pieces of art from the late twentieth century Richmond gives serious critical attention to work often dismissed as trivial and rootless recovering the themes that link the different phases of the artist s quest to capture the frozen gesture Whether challenging popular tastes and definitions of art with her 1970s abstract knotwork or mocking puritanical aesthetics of gender with her colourful latex pourings and their allusions to corporeal topographies Benglis never failed to provoke Her sculptures commemorate and celebrate the processes of creation themselves combining architectonic abstraction and feminized sensuality in a haunting visceral theme of the strangeness of the body that runs through all her experiments in glass video metals ceramics gold leaf paper and plastics Lynda Benglis *Beyond Process* examines in depth the work and critical neglect of an artist who perhaps more than any of her contemporaries changed the face of American art in the 1960s and 1970s and continues to fetishise provoke and demand your attention *Open Letter*, 2007 **Multiple Voices** Centre d'Etudes Canadiennes (Bruxelles), 1990 *Future Indicative* John Moss, John George Moss, 1987 The format of this book is arbitrary and exact the way paint is in a landscape by Alex Colville It follows the program of the symposium that took place at the

University of Ottawa from April 25 to 27 1986 As Bakhtin leaps from the sidelines to centre stage as Derrida clammers out of orchestra pit into the prompter's box and Lacan swings from the flies as Foucault, Lévi-Strauss, Saussure, Barthes and a throng of others rhubarb their way through the text, one recognizes just how connected all the disparate elements of this critical extravaganza really are. Published in English. **Pictures and the Past** Alexander Bigman, 2024-06-25 The group of artists known as the Pictures Generation are usually thought to have rebelled against abstract and minimalist art by bringing back figural techniques and borrowing liberally from the aesthetics of mass media and advertising. Challenging conventional interpretations of this group, Alexander Bigman argues that these artists, especially Robert Rauschenberg, Jack Goldstein, Sarah Charlesworth, Gretchen Bender and Troy Brauntuch, deployed totalitarian and fascist iconography to pose new politically loaded questions about what it means to perceive the world historically in a society saturated by images. Throughout, he also situates their work in the context of other developments taking place in New York City at the time, including music, fashion, cinema and literature. This is a book about art, popular culture and memory, and especially about how the specter of fascism loomed for these artists in the 1970s and 1980s and the ways it still looms for us today. **Works** Samuel Johnson, 1873

Proceedings of the Royal Society of Medicine Royal Society of Medicine (Great Britain), 1913. Comprises the proceedings of the various sections of the society, each with separate title page and pagination. *The Margin Speaks* Gunilla Florby, 1997

Coyote Country Arnold E. Davidson, 1994 For most North Americans, Canadians as well as Americans, the term Western evokes images of the frontier, brave sheriffs and ruthless outlaws, good cowboys and bad Indians. As Arnold E. Davidson shows in this groundbreaking study, a number of Canada's most interesting and experimental Western writers parody, reverse or otherwise defuse the paraphernalia of the classic U.S. Western. Lacking both a real and imagined frontier, Canadian settlers rode trains into the new territory already policed by Mounties; the writers of Canadian Westerns were set a different task from their American counterparts and were subsequently freed to create some of the most complex and engrossing fiction yet produced in Canada. Davidson details the evolution of the U.S. and Canadian Western forms, tracing the divergence between the two as Canadian writers responded to their unique historical circumstances by reinventing the West as well as the Western and establishing a new literary landscape where author and reader could work out new possibilities of being. Surveying a range of texts by Canada's most innovative writers, with special attention to women writers and Native stories, Coyote Country provides close readings of novels by Howard O'Hagan, Sheila Watson, Robert Kroetsch, Aritha van Herk, Anne Cameron, Peter Such, W.O. Mitchell, Beatrice Cullen and Thomas King. A unique study, Coyote Country offers at one and the same time a theory of Canadian Western fiction, a history of crosscultural paradigms of the West as manifested in novels, and an intensive reading of some of Canada's best literature.
