**Your Mathematics Standards Companion, High School** Frederick L. Dillon, W. Gary Martin, Basil M. Conway IV, Marilyn E. Strutchens, 2018-02-06 Transforming the standards into learning outcomes just got a lot easier. In this resource you can see in an instant how teaching to your state standards should look and sound in the classroom. Under the premise that math is math the authors provide a Cross Referencing Index for states implementing their own specific mathematics standards allowing you to see and understand which page number to turn to for standards based teaching ideas. It's all here page by page. The mathematical progression of each conceptual category starting with modeling as a unifying theme and moving through number and quantity, algebra, functions, geometry, and statistics and probability building from eighth grade standards. The mathematics embedded in each conceptual category for a deeper understanding of the content. How standards connect within and across domains and to previous grade standards so teachers can better appreciate how they relate. How content standards connect with the standards for mathematical practice with a focus on modeling as a unifying theme. Example tasks progressions of tasks and descriptions of what teachers and students should be doing to foster deep learning. Your Mathematics Standards Companion is your one stop guide for teaching, planning, assessing, collaborating and designing powerful high school mathematics curriculum in any state or district.
