Advanced Life Support Training Manual:

Handbook of Obstetric Emergencies (Second Edition) DR GUNASEGARAN RAJAN,DR MUNISWARAN GANESHAN,DR TANG BOON NEE,DR THANEEMALAI JEGANATHAN,2025-03-01 We are delighted to present the second edition of this Handbook in Obstetric Emergencies The first edition had 3 reprints with almost 3 000 copies sold both in Malaysia and overseas The Mandarin version has sold close to 1 000 copies in China We have kept the preface to the first edition as it still captures the essence of the content This updated handbook has revised content on most of the chapters incorporating new guidelines and evidence to ensure you have the most recent information at hand These guidelines are sourced from the leading health organisations and the global obstetrics and gynaecology societies The chapters have been critically reviewed by leaders in the field to whom we extend our gratitude Some of the topics have been redesigned to appear in the appendix to align with the curriculum that is being conducted at the onsite Intensive Course in Obstetric Emergencies ICOE This handbook serves as an indispensable resource for all the participants at the course and is complemented by videos and podcast via the QR code embedded in the chapters The handbook has a design make over with softer tones to provide a more appealing appearance It is true that there are an abundance of digital resources available for obstetric emergencies We argue that there is still an enduring place for physical handbook for ease and quick reference of important information during emergencies It is sad that the recent WHO data show mothers still die in childbirth and it is hoped this handbook will be a useful resource to obstetricians and midwives as it endeavours to provide a clear medical approach during critical moments in childbirth **Advances in Medical Education** A.J.J.A. Scherpbier,Cees P.M. van der Vleuten,J.J.

Rethans,A.F.W. van der Steeg,2012-12-06 About 550 registrants from 51 different countries attended the Seventh Ottawa Conference on Medical Education and Assessment in Maastricht We received 525 abstracts for the conference divided in thematic poster sessions and platform presentations Organising the conference was an honour and we tried to meet the high standards of a friendly and relaxed atmosphere which has characterized previous Ottawa conferences During and after the conference about 250 papers were submitted for publication in the conference proceedings leaving us little time for a post conference depression Despite the large number of papers the editors have attempted to review and edit the papers as carefully as possible Occasionally however correspondence exceeded reasonable deadlines preventing careful editing of a small number of the papers Although we felt that our editorial task was not quite finished we nevertheless decided to include these papers We thank the many authors for their enthusiastic and prompt response to occasionally tedious editorial suggestions and requests We are sure that this collective effort has resulted in a book that will make an important contribution to the field of medical education The editors want to thank Jocelyn Flippo Berger whose expertise with desk top publishing and perseverance was a great help **Oxford Handbook of Pre-Hospital Care** Ian Greaves,Keith Porter,2006-12-21 The

Oxford Handbook of Pre hospital Care provides the reader with authoritative evidence based advice on the assessment and

management of pre hospital care emergencies It is designed to provide information for all immediate care practitioners including doctors paramedics emergency care practitioners nurses and voluntary aid society members The Oxford Handbook format and its pocket size make its content readily accessible and it can be carried easily in jackets or other personal protective clothing Each section defines the important clinical features of the named condition and includes boxes containing essential advice The treatment section incorporates national and international guidelines and protocols where available and reflects contemporary best practice Topics include scene safety personal protective equipment basic and advanced life support head injuries chest injuries abdominal and pelvic injuries spinal injuries musculoskeletal injuries medical emergencies mass gathering incidents major incidents burns and related problems The authors have broad experience in pre hospital care including civilian and military practice in various fields including medical emergencies road traffic collisions entrapments ballistic trauma and major incidents This is the essential quick reference guide to pre hospital medicine
