

# Middle Grades Advisory 101

## At a glance

The Association for Middle Level Education defines **Advisory** as regularly scheduled times when young adolescents have the opportunity to interact with a small group of peers and a teacher-advisor to discuss school and personal concerns. The group may be grade level or multi-grade level.

**“Advisory is not a new fad, a time filler, or a flash in the pan. For more than 100 years, advisory has been central to the middle school philosophy.”**

## WHAT IS ADVISORY?

Advisory programs come in many forms, with one format not necessarily being better than others so long as the program is designed to be responsive to the needs of the students and school community. Goals of the advisory program may include character and executive functioning development, career exploration opportunities, service learning, and relationship building. Some may meet daily or weekly, or at special times throughout the year.

## WHY ADVISORY?

Young adolescents need educational environments that cater to their unique physical, cognitive, social, and emotional development. Advisory programs in middle grades schools offer numerous benefits for students, teachers, and families. Overall, advisory programs can contribute to a supportive, inclusive school culture that nurtures student well-being and community engagement.

### **Personalized Guidance Supports Student Achievement**

Students benefit from personalized guidance and gain executive functioning and social and emotional skills crucial for their holistic development and future success. For teachers, advisory facilitates deeper connections with students, allowing for better monitoring of progress and providing tailored support, which enhances academic outcomes.

**2**

### **Enhanced Family Engagement**

Teacher advisors are charged with enlisting the family as a true partner in the child's school life. Ideally, a relationship with two-way communication develops and the advisor becomes the parent's first point of contact with the school.

**3**

### **Strengthened School Culture**

Advisory promotes a school culture of empathy and respect by building in opportunities for peers and trusted adults to interact in supported spaces, enriching the educational environment. Advisory also helps to fortify identity and resiliency by bringing together kids who may not normally interact or gravitate to each other in social settings. This diverse group of kids also develops their own unique identity as they spend time together.
