Aldhelm The Prose Works:

The Prose Works/Aldhelm ; Translated by Michael Lapidge and Michael Herren Saint Aldhelm,1979 **Aldhelm** Saint Aldhelm (Bp. of Sherborne),1979 *Through a Glass Darkly* Nancy Porter Stork,British Library,Pontifical Institute of Mediaeval Studies,1990 **Latin Learning and English Lore** Michael Lapidge,2005-01-01 The essays in Latin Learning and English Lore cover material from the beginning of the Anglo Saxon literary record in the late seventh century to the immediately post Conquest period of the twelfth century **Charters of Malmesbury Abbey** S. E. Kelly,2005 Malmesbury Abbey was one of the few English minsters which had a continuous existence from the seventh to the sixteenth century and the Malmesbury archive is a particularly important witness to the history of Wessex and the West Saxon church in the pre Viking period More than half of the surviving charters purport to date from the seventh and eighth centuries many of them directly associated with Malmesbury s most celebrated abbot the scholar and poet Aldhelm This volume is the first scholarly edition of Malmesbury s pre Conquest charters The Malmesbury archive poses a particularly difficult editorial challenge since the manuscripts are generally late and the abbey s scribes were prone to forgery and the improvement of their muniments Although the abbey had its own celebrated post Conquest historian in William of Malmesbury regrettably little detailed information has survived about the early history of the monastery Nevertheless analysis of the charters has made it possible to build up a fairly coherent picture of Malmesbury s development in the first four centuries of its existence This volume provides an important background to William of Malmesbury s *De gestis pontificorum Anglorum* and includes significant new material for the study of William s use of historical documents Charters of Malmesbury Abbey is comprised of editions of thirty five charters and also a small group of separate boundary surveys with expert detailed commentaries on their historical and topographical importance The charters are prefaced by a lengthy introduction which presents a new synthesis of the history of the abbey and an extensive bibliography **Textiles, Text, Intertext** Maren Clegg Hyer,Jill Frederick,2016 The theme of weaving a powerful metaphor within Anglo Saxon studies and Old English literature itself unites the essays collected here They range from consideration of interwoven sources in homiletic prose and a word weaving poet to woven riddles and iconographical textures in medieval art and show how weaving has the power to represent textiles texts and textures both literal and metaphorical in the early medieval period They thus form an appropriate tribute to Professor Gale R Owen Crocker whose own scholarship has focussed on exploring woven works of textile and dress manuscripts and text and other arts of the Anglo Saxon peoples **The Wiley Blackwell Encyclopedia of Anglo-Saxon England** Michael Lapidge,John Blair,Simon Keynes,Donald Scragg,2013-10-02 Widely acknowledged as the essential reference work for this period this volume brings together more than 700 articles written by 150 top scholars that cover the people places activities and creations of the Anglo Saxons The only reference work to cover the history archaeology arts architecture literatures and languages of England from the Roman withdrawal to the Norman Conquest c 450 1066 AD

Includes over 700 alphabetical entries written by 150 top scholars covering the people places activities and creations of the Anglo Saxons Updated and expanded with 40 brand new entries and a new appendix detailing English Archbishops and Bishops c 450 1066 Accompanied by maps line drawings photos a table of English Rulers c 450 1066 and a headword index to facilitate searching An essential reference tool both for specialists in the field and for students looking for a thorough grounding in key topics of the period

Reading Gender Felice Lifshitz, 2023-04-25 This collection brings together twelve essays published between 1988 and 2014 two of which are here translated into English from respectively their original French or German All the essays use gender as the main category of analysis whether of late ancient or early medieval texts or of modern medievalist films The historical studies of medieval Europe emphasize the use of manuscript level evidence that is actual sources from the period in question arguably this approach provides a more accurate understanding of the period than does work done on the basis of printed and edited sources Furthermore many of the manuscript based essays specifically exploit liturgical or liturgy adjacent materials this is an area of research and a type of manuscript that has rarely been approached through a gendered lens Meanwhile the cinematic medievalism essays focus on the processes of remediation and adaptation searching specifically for points at which filmmaking teams diverged from their sources as evidence for the main goals of the films while also attending to production contexts and to reception The juxtaposition in a single collection of scholarship on medieval manuscripts and modern movies illustrates how period specialists can contribute to conversations in the field of historical film studies The book will be of interest to historians of women gender Christian liturgy medieval Europe medievalism and historical film
