Evaluating the Sixth Tool

Seth Haselhuhn,2013 The purpose of this exploratory study was to gain a better understanding of baseball specific makeup and begin development of a valid and reliable instrument designed for use by Major League Baseball MLB to objectively assess specific personality characteristics i.e. makeup of professional baseball prospects Four instruments were chosen to measure the psychological constructs of baseball makeup including motivational styles self theories regarding ability resilience and moral reasoning Participants included 232 collegiate baseball players currently competing in five different divisions of collegiate baseball who responded to the package of original instruments as well as items modified to use baseball specific language Confirmatory factor analysis was used to successfully reduce and combine subscales of the

original instruments into an overall model with acceptable fit indexes Correlational analysis and paired t test results provided no support for sport specific modification of the original instruments Bivariate and canonical correlation analysis demonstrated consistent conceptually relevant relationships between the psychological constructs examined K mean cluster analysis produced three meaningful motivational style profiles for the sample population and MANOVA results provided conceptually relevant differences between the profiles In total results provide objective insights into baseball makeup and support the need for educational interventions as part of professional baseball prospect development *Intangiball* Lonnie Wheeler,2015-08-11 Longtime baseball writer and observer Lonnie Wheeler explains that there are unquantifiable elements in the game of baseball intangibles and shows how these immeasurable elements can bring success both to individual players and to teams *Baseball America 2020 Prospect Handbook Digital Edition* Editors of Baseball America,2020-03-24 A Simon Schuster eBook Simon Schuster has a great book for every reader **Multilingual Baseball** Brendan H.
