**Literacies in Language Education** Kate Paesani, Mandy Menke, 2023-04-01 A practical and innovative guide to emphasizing literacies development when teaching world languages. *Literacies in Language Education* introduces multiliteracies pedagogy which focuses on critical engagement with texts, intercultural understanding and language proficiency development. Kate Paesani and Mandy Menke, seasoned workshop leaders and multiliteracies scholars, define what the approach is, its benefits and how to create curricula grounded in it. In addition, they explain how to use the approach at all levels of language education and offer ideas for teacher professional development. Each key component of pedagogical change—melding text and language oriented learning goals—the authors embrace an expanded understanding of literacy to capture the dynamism of language and its contexts of use. The importance of preparing students to interact with the range of texts they will encounter in their academic, workplace and personal lives and the multicultural and multilingual landscape of secondary and postsecondary language classrooms. *Literacies in Language Education* presents teachers with a tested approach for increasing learners' proficiency and cultural awareness along with practical implementation methods. This book

provides teachers and program administrators with immediate steps to take toward designing and implementing a literacies approach in any language class and curriculum Published in partnership with CARLA **Design Pedagogy** Mike Tovey,2016-04-22 Design Pedagogy explains why it is vital for design students that their education helps them construct a passport to enter the professional sphere Recent research into design teaching has focused on its signature pedagogies those elements which are particularly characteristic of the disciplines Typically based on core design theory enlivened by approaches imported to the area such work has utility when it recognizes the visual language of designing the media of representation used and the practical realities of tackling design questions Increasingly the 21st century sees these activities in a global context where the international language of the visual artefact is recognized This book draws on recent work in these areas It includes a number of chapters which are developed from work undertaken during the period of special funding for centres of teaching excellence in the UK up until 2010 Two of those in design have provided the basis for research and innovative developments reported on here They have helped to enliven the environment for design pedagogy research in other establishments which are also included Design students need support for the agile navigation through the design process Learning experiences should develop students natural motivations and professionalise motivation to create a resilient informed and sustainable capacity This is the essence of transformative learning This collection explores how design education is in itself a passport to practice and showcases how some of the key developments in education use techniques related to collaboration case studies and experience to motivate students enable them to express their identity reflect and learn
