The Comprehensive Autism Planning System (Caps) for Individuals with Asperger Syndrome, Autism, and Related Disabilities: Integrating Best Practices T Shawn A. Henry,Brenda Smith Myles,2013-07-09 The CAPS The Comprehensive

Autism Planning System is a tool to help teachers and educational teams to plan and implement a student's program across the school. This includes planning for the implementation of the IEP Individualized Education Program and the curriculum relevant to the student. It takes the team through the process of planning out the goals and objectives to be targeted in each activity of the day, the modifications and accommodations that should be provided to support the student in each activity, the sensory supports to help the student stay engaged and the communication and social supports that the student needs to be successful. In addition, it identifies the type of data that should be collected for each area and the reinforcers that have been chosen for use for success. As with many tools, while this system was developed for use with individuals on the autism spectrum, it can be an essential tool for any student regardless of the types of supports and needs they have. There are various forms of this system that focus on targeting specific skills for each activity and identifying the communication, sensory and reinforcement supports that will be needed for each situation. This student manual contains the following features to help strengthen students' understanding of material discussed within each chapter and ability to apply the material to everyday work with individuals with autism spectrum and related disorders.

For Each Chapter:

- Chapter Learner Objectives: List of learner objectives at the beginning of each chapter as a preview of the chapter's content. The learner objectives also highlight information that readers are expected to understand and be able to explain after reading the chapter.
- Chapter Summaries: Overview of the main points discussed within the chapter.
- Glossary: Alphabetical listing of important vocabulary terms presented in grey boldface within the book.
- Chapter Review Questions and Answers: Questions and accompanying answers designed to check understanding of and ability to explain the information discussed within the chapter. The review questions may also be used as a study guide when preparing for tests and/or exams that may be administered in class.
