Canada is experiencing an unparalleled crisis involving forests and communities across the country. While municipalities, policy makers and industry leaders acknowledge common challenges such as an overdependence on US markets, rising energy costs and lack of diversification, no common set of solutions has been developed and implemented. Ongoing and at times contentious public debate has revealed an appetite and need for a fundamental rethinking of the relationships that link our communities, governments, industrial partners and forests towards a more sustainable future. The creation of community forests is one path that promises to build resilience in forest communities and ecosystems. This model provides local control over common forest lands in order to activate resource development opportunities, benefits and social responsibilities. Implementing community forestry in practice has proven to be a complex task; however, there are no road maps or well developed and widely tested models for community forestry in Canada. But in settings where community forests have taken hold, there is a rich and growing body of experience to draw on. The contributors to *Growing Community Forests* include leading researchers, practitioners, Indigenous representatives, government representatives, local advocates and students who are actively engaged in sharing experiences, resources and tools of significance to forest resource communities, policy makers and industry.

This 2 volume set focuses on the 100 most important topics, issues, questions and debates specific to politics and civic society. Offers broad coverage of important topics related to political and civic leadership including explorations of the personalities and environments of political leaders, leadership roles in governance and allegiance, citizen activists and civic engagement, political campaigning, urban politics and leadership, public management, ethics in politics, policy development and implementation, executive management of public opinion, political speechmaking and the bully pulpit, congressional leadership, crisis management and more. Considers the history of political and civic leadership with examples from the lives of pivotal figures as well as the institutional settings and processes that lead to both opportunities and constraints unique to the political realm. Provides students with more depth than usual encyclopedic entries while avoiding the jargon, detail and density of more advanced works. Features an approachable and clear writing style with appeal to undergraduate researchers and offers a list of further readings after each entry as well as a detailed index and an online version of the work to maximize accessibility for today's students.
