Activities For Two Bad Ants:

Story Stretchers for the Primary Grades Shirley C. Raines, Robert J. Canady, 1992 A collection of ideas for activities to use in conjunction with over 90 children's books *Ants Thematic Unit* Janet Hale, 1997 Stories, activities on ants including science projects, math projects and life skills for primary K-4 students **Transforming Preschool Storytime** Betsy Diamant-Cohen, Melanie A. Hetrick, 2013-06-18 According to recent research the best way to make new connections in a child's brain is by building on something already known. A child who loves a book will listen to it repeatedly, maintaining interest. Using a selected book in a number of consecutive preschool storytimes but presenting it differently each time can help children learn new skill sets. This book presents a new approach to storytime, one that employs repetition with variety to create an experience which helps children connect and engage with the story on a higher level. Diamant Cohen recently awarded the 2013 ASCLA Leadership and Professional Achievement Award and Hetrick offer a year's worth of activities specifically designed to address multiple intelligences through a repetition based process. Incorporating recent theories on developmental learning, this book includes Scripts for 8 different books with enough activities to repeat each one for six weeks along with lists of optional alternative books. Planning aids such as outlines of storytime sessions, a fill in the blanks planning sheet, questions for evaluation and tips for enhanced storytimes using props and crafts. Detailed but straightforward explanations of theory and research that will help readers communicate effectively with parents, caregivers and other stakeholders. From setup to execution, here's everything you need to create and implement a successful elevated storytime.

Involving Parents Through Children's Literature Anthony D. Fredericks, 1992-09-15 You'll appreciate these tools for parent participation in the learning process. Reproducible activity sheets based on quality children's books are designed as take-home assignments for children. Each sheet includes a book summary, discussion questions and a list of engaging learning activities for adults and children that increase discussion, reading skills and comprehension. *School Library Media Activities Monthly*, 2000

Science Through Children's Literature John W. Butzow, Carol M. Butzow, 2000-03-15 The Butzows' groundbreaking, critically acclaimed and best selling resource has been thoroughly revised and updated for today's classroom with new titles and new activities. More than 30 exciting instructional units integrate all areas of the curriculum and serve as models to educators at all levels. With each chapter there is also a list of related sources including Internet sites. Adopted as a supplementary text in schools of education nationwide, this resource features outstanding children's fiction books that are rich in scientific concepts yet equally well known for their strong story lines and universal appeal. Activities can be used with appropriate titles for higher grades. **Spotlight on Literacy 2000**, 2000 **Letter Works: Building Early Literacy Skills** Mary Chappell, 2003-08-08 Week long units for each letter of the alphabet reinforce developing literacy skills. Read aloud activities, songs, centers and snacks provide connections to language arts, math, science and social studies concepts. Teach these stand alone units in order or flow from one theme to the next. **Elementary Science Methods**

David Jerner Martin,2000 This text s unique constructivist approach guides students in learning by doing Geared to teachers of preschool through sixth grade students it represents the cutting edge of elementary science teaching with up to date investigations into contemporary topics **Creative Thinking and Problem Solving for Young Learners** Jerry D.

Flack,Karen Meador,1997-11-15 Can creativity be taught Absolutely And Meador shows you exactly how to nourish creativity and problem solving abilities in your students After presenting valid models of creative thinkers appearing in outstanding children s literature she offers a variety of activities you can use to develop creative processes through fluency flexibility and originality In addition there are lists for further reading and guidelines for adapting lessons Grades K 4 adaptable to other grades **Lit and Crit Thinking, Book 7** John Carratello,Patty Carratello,Carratello,2006-12 **Creating Reading**

Instruction for All Children Thomas G. Gunning,1996 This book will not tell you how to teach reading Teaching reading is in large measure a matter of making choices Should you use basal readers or children s books or both Should you teach children to read whole words or to sound out words letter by letter or both Should you have three reading groups or four or no groups There are no right answers to these questions The answers depend on your personal philosophy your interpretation of the research the level at which you are teaching the kinds of students you are teaching community preferences and the nature of your school or school district s reading program **From Wonder to Wisdom** Charles A.

Smith,1989 **Early Childhood Language Arts** Mary Renck Jalongo,1992 Early Childhood Language Arts Fourth Edition offers a more comprehensive look at early childhood literacy education integrating the language arts listening speaking reading and writing than any other book on the market In response to the call for evidence based reading instruction the Fourth Edition includes 36 research based teaching strategies and every chapter incorporates information on brain research bilingual education technology and the media s influences on young children Mary Renck Jalongo provides readers with a synthesis of the information on language arts gleaned from research on emergent literacy early childhood education and special education She also underscores what is being emphasized in early childhood teacher accreditation programs namely responding to the increasingly diverse needs of young language learners in inclusive settings working with parents and families and collaborating with professionals in other fields **250 Everyday Science Activities** Dennis McKee,1996
