Chapter 1 SCORING HIGH ON THE ACT ASSESSMENT ABOUT OUR BOOK

This book has the tools to effectively prepare you for the ACT Assessment. It contains five full-length practice exams complete with answer keys and detailed explanations for each question, along with a topical review for each of the five individual tests that make up the ACT. All of the practice exams we provide are based on the latest ACT test administrations and contain every type of question that you can expect to encounter on the actual exam.

ABOUT THE ACT

Who Takes the ACT and What is It Used for? The ACT is usually taken by high school juniors and seniors. The exam is used by college admissions officers as a way to fairly judge all the students who apply to their school. Because high schools across the United States use many different grading systems, ACT scores put everyone on more of an equal footing. Your ACT scores, along with other information provided by you and your high school, help colleges predict how well you will do at the college level. If you don't do well on the ACT, don't panic. The exam can be taken over so that you can work on improving your scores. It's also not the be-all and end-all that you might think it is. Admissions officers use a number of criteria to judge applicants: Grade point average, extracurricular activities on campus, interviews, and the degree to which you've been taking challenging courses in high school are all factors that go into the mix. REA believes you have every reason to believe that with enough of the right preparation, you can and should score well on the ACT. Nonetheless, you shouldn't think that not doing so will necessarily jeopardize your chances of attending the college of your choice. The very fact that you picked up this book, however, means that you're not one to leave much to chance. Having our test prep at your side as you approach test day will give you the extra shot of confidence we all sometimes need to climb the ladder of success.

Who Administers the ACT?

The ACT is developed and administered by ACT, Inc., and involves the assistance of educators throughout the country. The development process is designed and implemented to ensure that the content and difficulty level of the exam are appropriate.
