The lightning bolt with enclosed symbol, within an equipment triangle, is intended to alert the user to the presence of uninsulated "dangerous voltage" within the product's enclosure that may be of sufficient magnitude to constitute a risk of electric shock to persons.

The equipment must within an equipment triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the appliance.

WARNING:
TO REDUCE THE RISK OF FIRE OR ELECTRIC SHOCK, DO NOT EXPOSE THIS APPLIANCE TO RAIN OR MOISTURE.

SAFETY INSTRUCTIONS

- Read Instructions - All the safety and operating instructions should be read before the product is operated.
- Heed Instructions - The safety and operating instructions should be retained for future reference.
- Heed Warnings - All warnings on the product and in the operating instructions should be followed.
- Follow Instructions - All operating and use instructions should be followed.
- Cleaning - Unplug the product from the wall outlet before cleaning. Do not use liquid cleaners or aerosol cleaners.
- Attachments - Do not use attachments not recommended by the product manufacturer as they may cause hazards.
- Water and Moisture - Do not use this product near water - for example, near a bath tub, wash basin, kitchen sink, or laundry tub, in a wet basement, or near a swimming pool, and/or the like.
- Accessories - Do not place the product on an unstable cart, stand, tripod, bracket, or table. The product may fall, causing serious injury to a child or adult, and possible damage to the product. Use only with a cart, stand, tripod, bracket, or table recommended by the manufacturer, or sold with the product. Any mounting of the product should follow the manufacturer's instructions, and should not be made according to instructions recommended by the manufacturer.
- A product and each combination should be moved with care. Quick stops, excessive force, and uneven surfaces may cause the product and cart combination to overturn.
- Ventilation - Slots and openings in the cabinet are provided for ventilation and to ensure reliable operation of the product and to prevent overheating, and these openings must not be blocked or covered. The openings should never be blocked by placing the product on a bed, sofa, rug, or other similar surface. This product should not be placed in a built-in installation such as a bookcase or rack unless proper ventilation is provided as the manufacturer's instructions have been defined in these documents. This product should be operated only from the type of power source indicated on the marking label. If you are not sure of the type of power supply to your home, consult your product dealer or local power company. The product is intended to operate from battery power, or other sources, refer to the operating instructions.
- Grounding or Polarization - This product may be equipped with a polarized alternating current plug to help prevent wiring errors within the unit. If the plug will not fit into the power outlet only use one. This is a safety feature. If the plug will not fit into the power outlet, contact your electrician to replace your obsolete outlet. Do not defeat the safety purpose of the polarized plug.
- Power Cord Protection - Power supply cords should be routed so that they are not likely to be walked on or pinched by items placed upon or against them. Pay particular attention to cords at plugs, convenience receptacles, and the point where they exit from the product.
- Outdoor Antenna Grounding - If an outside antenna or cable system is connected to the product, be sure the antenna or cable system is grounded so as to provide some protection against voltage surges and built-up static charges. Inside the U.S. the National Electrical Code, ANSI/NFPA 70, provides information with regard to proper grounding of the mast and supporting structure, grounding of the lead-in wire to an antenna discharge unit, type of grounding conductors, treatment of ground-discharge unit, connections to grounding electrodes, and requirements for the grounding electrode. See Figure A.
- Lightning - For added protection for the product during a lightning storm, or when it is left unattended and unused for long periods of time, unplug it from the wall outlet and disconnect the antenna or cable system. This will prevent damage to the product due to lightning and power line surges.
- Power Lines - An outside antenna system should not be located in the vicinity of overhead power lines or other electric light or power circuits, or where it can fall into such power lines or circuits. When installing an outside antenna system, extreme care should be taken to keep from touching high-voltage lines or circuits and contact with them might be fatal.
- Overheating - Do not overload wall outlets, extension cords, or integral convenience receptacles as this can result in a risk of fire or electric shock.
- Chassis and Liquid Entry - Never pour liquids of any kind into the product through openings as they may short dangerous voltage points or short-circuit parts that could result in a fire or electric shock. Never spill liquid of any kind on the product.
- Servicing - Do not attempt to service this product yourself as opening or removing covers may expose you to dangerous voltage or other hazards. Refer all servicing to qualified service personnel.
- Damage-Preventing Service - Unplug the product from the wall outlet and refer servicing to qualified service personnel under the following conditions:
 - When the power supply cord or plug is damaged.
 - If liquid has been spilled on or into the base of the product.
 - If the product has been dropped or the cabinet deformed.
 - If the product does not operate normally by following the operating instructions. Repair parts should contain those that are covered by the operating instructions as an improper adjustment of other controls may result in damage and will affect safety features which are a qualified technician to correct the product to its normal operation.
 - If the product has been dropped or damaged in any way, and
 - If the product exhibits a distinct change in performance - this indicates a need for service.
- Replacement Parts - When replacement parts are required, be sure the service technician has used replacement parts specified by the manufacturer or have the same characteristics as the original part. Unsubstituted substitutions may result in fire, electric shock, or other hazards.
- Safety Checks - Before using any service or repairs to this product, ask the service technician to perform safety checks to determine that the
