Interculturalism and Performance Now Charlotte McIvor, Jason King, 2018-12-29 This book is the first edited collection to respond to an undeniable resurgence of critical activity around the controversial theoretical term interculturalism in theatre and performance studies. Long one of the field's most vigorously debated concepts, intercultural performance has typically referred to the hybrid mixture of performance forms from different cultures typically divided along an East West or North South axis and its related practices frequently charged with appropriation, exploitation or ill founded universalism. New critical approaches since the late 2000s and early 2010s instead reveal a plethora of localized grassroots, diasporic and historical approaches to the theory and practice of intercultural performance which make available novel critical and political possibilities for performance practitioners and scholars. This collection consolidates and pushes forward reflection on these recent shifts by offering case studies from Asia, Africa, Australasia, Latin America, North America and Western Europe which debate the possibilities and limitations of this theoretical turn towards a new interculturalism.

Palaces and Courtly Culture in Ancient Mesoamerica Julie Nehammer, Knub, Christophe Helmke, Jesper Nielsen, 2014-01-19 This volume collects eight recent and innovative studies spanning the breadth of Mesoamerica from the Early Classic metropolis of Teotihuacan to Tenochtitlan, the Late Postclassic capital of the Aztec, and from the arid central Mexican highlands in the west to the humid Maya lowlands in the east.

Views of the Cordilleras and Monuments of the Indigenous Peoples of the Americas Alexander von Humboldt, 2013-01-25 In 1799 Alexander von Humboldt and Aim Bonpland set out to determine whether the Orinoco River connected with the Amazon. But what started as a trip to investigate a relatively minor geographical controversy became the basis of a five year exploration throughout South America, Mexico and Cuba. The discoveries amassed by Humboldt and Bonpland were staggering and much of today's knowledge of tropical zoology, botany, geography and geology can be traced back to Humboldt's numerous records of these expeditions. One of these accounts, *Views of the Cordilleras and Monuments of the Indigenous Peoples of the Americas*, firmly established Alexander von Humboldt as the founder of Mesoamerican studies. In *Views of the Cordilleras*, first published in French between 1810 and 1813, Humboldt weaves together magnificently engraved drawings and detailed texts to achieve multifaceted views of cultures and landscapes across the Americas. In doing so, he offers an alternative perspective on the New World, combating presumptions of its belatedness and inferiority by arguing that the old and the new world are of the same geological age. This critical edition of *Views of the Cordilleras*, the second volume in the Alexander von Humboldt in English series, contains a new unabridged English translation of Humboldt's French text as well as annotations, a bibliography and all sixty nine plates from the original edition, many of them in color.

Polity and Ecology in Formative Period Coastal Oaxaca Arthur A. Joyce, 2013-02-15 Encapsulating two decades of research, *Polity and Ecology in Formative Period Coastal Oaxaca* is the first major treatment of the lower Río Verde region of Oaxaca investigating its social, political and ecological history. Tracing

Formative period developments from the earliest known evidence of human presence to the collapse of Río Viejo the region's first centralized polity the volume synthesizes the archaeological and paleoecological evidence from the valley. This period saw the earliest agricultural settlements in the region as well as the origins of sedentism and social complexity and witnessed major changes in floodplain and coastal environments that expanded the productivity of subsistence resources. The book addresses theoretically significant questions of broad relevance such as the origins and spread of agriculture the social negotiation of complex political formations the effects of long distance trade and interaction the macroregional effects of landscape change and prehispanic ideology and political power. Focusing on questions of interregional interaction environmental change and political centralization Polity and Ecology in Formative Period Coastal Oaxaca provides a comprehensive understanding of the Formative period archaeology of this important and long neglected region of Oaxaca.

Art Treasures of Ancient Mexico Felipe R. Solís Olguín, Ted J. J. The authoritative text is supported by stunning reproductions of artifacts drawn from key ethnographical collections in Mexico. Together these elements help create a story of a civilization in which we can recognize the enduring quests and questions of humankind.

Pilgrimage to

Broken Mountain Alan R. Sandstrom, Pamela Effrein Sandstrom, 2023-01-20 An ethnographic study based on decades of field research Pilgrimage to Broken Mountain explores five sacred journeys to the peaks of venerated mountains undertaken by Nahua people living in northern Veracruz Mexico. Punctuated with elaborate ritual offerings dedicated to the forces responsible for rain seeds crop fertility and the well being of all people these pilgrimages are the highest and most elaborate form of Nahua devotion and reveal a sophisticated religious philosophy that places human beings in intimate contact with what Westerners call the forces of nature. Alan and Pamela Sandstrom document them for the younger Nahua generation who live in a world where many are lured away from their communities by wage labor in urban Mexico and the United States. Pilgrimage to Broken Mountain contains richly detailed descriptions and analyses of ritual procedures as well as translations from the Nahuatl of core myths chants performed before decorated altars and statements from participants. Particular emphasis is placed on analyzing the role of sacred paper figures that are produced by the thousands for each pilgrimage. The work contains drawings of these cuttings of spirit entities along with hundreds of color photographs illustrating how they are used throughout the pilgrimages. The analysis reveals the monist philosophy that underlies Nahua religious practice in which altars dancing chanting and the paper figures themselves provide direct access to the sacred. In the context of their pilgrimage traditions the ritual practices of Nahua religion show one way that people interact effectively with the forces responsible for not only their own prosperity but also the very survival of humanity. A magnum opus with respect to Nahua religion and religious practice Pilgrimage to Broken Mountain is a significant contribution to several fields including but not

limited to anthropology Indigenous literatures of Mesoamerica Nahuatl studies Latinx and Chicanx studies and religious studies *Pacific Discovery* ,1970 **Quetzal Feather Headdress** Gerard W van Bussel,2017
