Ba Arch Aalto Collectif:

Inflection 06: Originals Sir Peter Cook, Alison Brooks, Beatriz Colomina, Sean Godsell, Adam Peacock, 2019-09-16 Architects are expected to create original ideas resulting in a unique bespoke design. With the rise of Modern Architecture originality became ingrained in perceptions of good design. As a result originality has become a barometer against which we measure the value of design. However technology today allows for ease of replication and copies thus originality in design has become an ostensibly hollow prospect. *Originals* gathers a wide range of responses varied in their opinions and approaches to originality and authorship in design and architecture. *Inflection* is a student run design journal based at the Melbourne School of Design University of Melbourne. Born from a desire to stimulate debate and generate ideas it advocates the discursive voice of students, academics and practitioners. Founded in 2013 *Inflection* is a home for provocative writing, a place to share ideas and engage with contemporary discourse.

Women in Scandinavian Landscape Architecture Svava Riesto, Henriette Steiner, 2024-12-02 Women were active in landscape architecture in Scandinavia throughout the twentieth century yet little is known about their contribution. This volume therefore asks where are the women in Scandinavian landscape architecture. It thus presents new knowledge about women's contributions to the shaping of modern cities and landscapes in the Scandinavian welfare states. With chapters by some of the most respected architectural and landscape architectural historians as well as up and coming scholars and practice based artistic researchers the book makes three major contributions. First it asks the previously neglected question of women's contributions to twentieth century landscape architecture in Denmark, Sweden and Norway. Second it does so from a transnational perspective bringing together researchers from Scandinavia and Finland. Third it documents how collaborative formats for knowledge creation can generate new insights and fruitful links between researchers and research materials. The book brings to light new knowledge and new forms of architectural historical work on the contributions of many women landscape architects to designed open spaces. **Art**

Index Alice Maria Dougan, Margaret Furlong, 1980 **Performing Architectures** Andrew Filmer, Juliet Rufford, 2018-05-03 *Performing Architectures* offers a coherent introduction to the fields of performance and contemporary architecture exploring the significance of architecture for performance theory and theatre and performance practice. It maps the diverse relations that exist between these disciplines and demonstrates how their aims, concerns and practices overlap through shared interests in space, action and event. Through a wide range of international examples and contributions from scholars and practitioners it offers readers an analytical survey of current practices and equips them with the tools for analyzing site specific and immersive theatre and performance. The essays in this volume contributed by leading theorists and practitioners from both disciplines focus on three key sites of encounter. *Projects* examines recent trends in architecture for performance. *Practices* looks at cross currents in artistic practice including spatial dramaturgies, performance architectonics and performative architectures. *Pedagogies* considers the uses of performance in architectural education and architecture in

teaching performance The volume provides an essential introduction to the ways in which performance and architecture as socio spatial processes and as things made or constructed operate as generating shaping and steering forces in understanding and performing the other
