from various national backgrounds each year thereby fostering French influence and promoting cross cultural understanding In this context the book traces these students trajectories through major social and political movements of the century such as anti colonialism communism and feminism from the interwar period to the globalization in the 2000s It explores the varied backgrounds of students including democratic elites exiles fleeing military dictatorships and students from developing nations Through this analysis the book illuminates the forces driving global student mobility and academic diplomacy assessing the roles of governments universities and philanthropic organizations in shaping these efforts Furthermore it reveals the complex intersections of class gender and race within migrant student communities for whom the Cit served as a nexus of exchange and cultural transfer By using the Cit Internationale as a case study this work offers a distinctive perspective on the global history of student mobility and transnational higher education
