Apart From Modernism Apart From Modernism:

Apart from Modernism Robin Peel, 2005 The study emphasizes the crucial role that Wharton's contact with Europe had on her writing and the significance intellectually and politically of her relationship with Morton Fullerton and her reading of his books on politics It locates Wharton in her period surrounded as she was by discourses which called for political and social change change which an outlook that Peel calls American Toryism made her reluctant to embrace Her love of motorcars and her excitement about other technological developments such as aeroplanes was inspired by a feeling of exclusivity and not the democratization of culture which she feared and condemned France England Italy and America formed the quartet of countries that contained the best and worst of culture and Peel emphasizes how ironical it was that a writer whose ideological beliefs endorsed the importance of home roots and tradition should have spent so much of her life as a restless apparently rootless traveler **BOOK JACKET** Worlds Apart: Modernity Through the Prism of the Local Daniel Miller, 2003-12-16 Worlds Apart is concerned with one of the new futures of anthropology namely the advances in technologies which create an imagination of new global and local forms It also analyses studies of the consumption of these forms and attempts to go beyond the assumptions that consumption either localises or fails to effect global forms and images Several of the chapters are written by anthropologists who have specialised in material culture studies and who examine the new forms especially television and mass commodities as well as some new uses of older forms such as the body The book also considers the ways in which people are increasingly not the primary creators of these images but have become secondary consumers **Modernism's Other Work** Lisa Siragani, 2015 Modernism's Other Work challenges our view of relationships between aesthetic autonomy and the world of daily life a conjuncture that Lisa Siragani demonstrates has often been misunderstood in critical studies of modernism Connecting poetry to the visual arts and politics the author provides new ways to think about modernist art's relationship *Theories of Modernity and Postmodernity* Bryan S. Turner, 1990 This book encapsulates the recent debate on the concepts of modernity and postmodernity Arguments over modernism and its aftermath are traced to their origins in art architecture and literature The authors then focus on the contribution of sociology to this cultural dispute through the theories of Weber Simmel Habermas Lyotard and Baudrillard Throughout *Theories of Modernity and Postmodernity* demonstrates the connections between traditional problems of sociological theory and the contemporary debate around modernity The London Quarterly Review, 1915 *Modernism and Eugenics* M. Turda, 2010-09-30 Modernism and Eugenics comprehensively explores modern Europe's fixation with eugenic programmes of racial and national purification It convincingly demonstrates that between 1870 and 1940 eugenicists were not only preoccupied with rescuing the individual from the anomie of modernity but equally championed a glorious racial destiny for the nation *Inspiration: Bacchus and the Cultural History of a Creation Myth* John F. Moffitt, 2005-05-01 The purpose of this book is to reveal the antique pedigree of a now commonplace term Inspiration an essential creation myth

now propelling notions of self expression in modern art making Knowledge of the ancient sources of such supposedly modernist fixations will make a significant contribution to historical cultural thinking particularly by showing in detail the facts of an unrecognized evolutionary continuity In order to personify Inspiration this study initially focuses upon Michelangelo's Bacchus of 1496 so revealing now forgotten meanings once typically to be attached in a generic way to any Bacchus Then it demonstrates how these Dionysiac concepts arose in ancient Greece Later developments particularly from the Middle Ages through the Renaissance are traced here for the first time Due to further modifications by Friedrich Nietzsche Dionysiac expressionism eventually became a staple of modern art theory and practice Modernism Monique Chefdor, Ricardo Quinones, Albert Wachtel, 1986 London Quarterly Review, 1926 The Princeton Theological Review, 1929 Includes section Reviews of recent literature **Spatiality** Robert T. Tally, 2013 Divided into six chapters each dealing with different aspects of the spatial in literary studies the book provides An overview of the spatial turn in literary theory from modern philosophy and historicism to cartography and literary theory Introductions to the major theorists such as Michel Foucault David Harvey Edward Soja Erich Auerbach Georg Lukács and Mikhail Bakhtin An analysis of spatiality from a variety of perspectives the writer as map maker different literary and critical spaces the concept of literary geography cartographics and geocriticism As the first guide to the literature and criticism of space this clear and engaging book is essential reading *The Portable Postmodernist* Arthur Asa Berger, 2003 In this volume the author brings together key concepts written by postmodernisms leading figures Lyotard Baudrillard Jameson and others Followed by his own commentary written in concise easy to understand language this book should be invaluable to students and professors alike who will find Berger's style refreshing Organised in 50 segments the subjects run the gamut from James Joyce to Disney culture to punk music Berger weaves these seemingly diverse topics together exploring and exposing postmodernism and its appearance in popular culture New Suburbanism: Sustainable Tall Building Development Kheir Al-Kodmany, 2016-04-14 Much of the anticipated future growth in the United States will take place in suburbia The critical challenge is how to accommodate this growth in a sustainable and resilient manner This book explores the role of suburban tall as a viable sustainable alternative to continued suburban sprawl It identifies 10 spatial patterns in which tall buildings have been integrated into the American suburbs The study concludes that the Tall Building and Transit Oriented Development TB TOD model is the most appropriate to promote sustainable suburbanism The findings are based on analyzing over 300 projects in 24 suburban communities within three major metropolitan areas including Washington DC Miami Florida and Chicago Illinois The book furnishes planning strategies that address the social economic and environmental aspects of sustainable tall building development It also discusses sustainable architectural design and site planning strategies and provides case studies of sustainable tall buildings that were successfully integrated into suburban settings Capturing the Beat Moment Erik Mortenson, 2010-11-02 CHOICE Outstanding Academic Title Examining the moment as one of the primary motifs of Beat

writing Erik Mortenson offers the first book to investigate immediacy and its presence and importance in Beat writing *Capturing the Beat Moment Cultural Politics and the Poetics of Presence* places an expanded canon of Beat writers in an early postmodern context that highlights their importance in American poetics and provides an account of Beat practices that reveal how gender and race affect Beat politics of the moment Mortenson argues that Beat writers focused on action desire and spontaneity to establish an authentic connection to the world around them and believed that living in the moment was the only way in which they might establish the kind of life that led to good writing With this in mind he explores the possibility that far from being the antithesis of their times the Beats actually were a product of them Mortenson outlines the effects of gender and race on Beat writing in the postwar years as well as the Beats attempts to break free of the constrictive notions of time and space prevalent during the 1950s Mortenson discusses such topics as the importance of personal visionary experiences the embodiment of sexuality and the moment of ecstasy in Beat writing how the Beats used photographs to evoke the past and the ways that Beat culture was designed to offer alternatives to existing political and social structures Throughout the volume Mortenson moves beyond the Kerouac Ginsberg Burroughs triumvirate commonly associated with Beat literature discussing women such as Diane di Prima Janine Pommy Vega and Joyce Johnson and African American writers including Bob Kaufman and Amiri Baraka With the inclusion of these authors comes a richer understanding of the Beat writers value and influence in American literary history

Modernism and Colonialism Richard Begam, Michael Moses, 2007-10-15 The essays in *Modernism and Colonialism* offer revisionary accounts of major British and Irish literary modernists relation to colonialism *Catholic Encyclopedia* ,1911 [The Catholic Encyclopedia](#): [Mass-Newman](#) ,1913 **The Catholic Encyclopedia** Charles George Herbermann, 1913 [The New Music Review and Church Music Review](#) ,1928 **Christian Advocate** ,1925
