

1

Connect Battery

For safety, the Back-UPS ES is shipped with one battery wire disconnected. The UPS will not operate until the wire is connected to the touch-safe battery terminal. **NOTE:** Small sparks may occur during battery connection. This is normal.

- 1 Turn the Back-UPS ES over and press in the two release tabs. Slide the plastic battery cover off the unit.

- 2 Connect the battery wire firmly to the battery terminal.

- 3 Insert the battery back into the compartment. Slide the plastic battery cover in place until the two tabs lock into place.

2

Connect Equipment

Battery Back-up plus Surge Protection

These outlets are powered whenever the Back-UPS ES is switched ON. During a power outage or other utility problems (brownouts, over-voltage), these outlets will be powered for a limited time by the Back-UPS ES. Plug your computer, monitor, CD-ROM drive and one other data-sensitive device such as an external disk or tape drive, or Home Phoneline Networking Association (HPNA) device into these outlets.

Surge Protection

These outlets provide full-time protection from surges even if the Back-UPS ES is switched OFF. Plug your printer, fax machine, scanner, or other peripherals that do not need battery power into these outlets.

Place the Back-UPS ES to avoid:

- Direct sunlight
- Excessive heat
- Excessive humidity or contact with fluids

Plug the Back-UPS ES power cord directly into a wall outlet; not a surge protector or power strip.

Connect Computer Cable

The supplied cable and software provide automatic file saving and shutdown of the operating system in the case of a sustained power outage.

Connect the cable to the Data Port of the Back-UPS ES. Connect the other end of the cable to the USB port on your computer. The software will automatically find the USB Port of your computer.

Connect Modem / Phone / DSL / Fax / 10/100Base-T / HPNA / Cable Modem / CATV or DSS to Surge Protection

The Back-UPS protects a single line (3-wire) phone (including Digital Subscriber Line - DSL), Home Phoneline Networking Association (HPNA) type equipment, modem, 10/100Base-T Ethernet, or fax machines from surges when connected through the UPS as shown in the drawing below.

The UPS also protects a cable modem, CATV converter, or DSS receiver from surges when it is connected through the UPS coaxial connectors as shown below.

3

Power On and Install Software

Press the ON/OFF switch to power the unit ON.

A single short beep and the green "Power On" indicator confirms the Back-UPS ES is on and ready to provide protection.

The Back-UPS ES should charge for at least 16 hours to ensure sufficient runtime. The unit is being charged whenever it is connected to utility power, whether the unit is turned ON or OFF.

If the red Building Wiring Fault indicator (located on the end near the power cord) is lit, your building wiring presents a shock hazard that should be corrected by a qualified electrician.

Install the PowerChute® Personal Edition software.

Place the PowerChute Personal Edition CD-ROM into your computer and follow the

Status Indicators

The Back-UPS ES indicates operating status using a combination of visual and audible indicators. Use the following table to identify the status of the Back-UPS ES.

EVENT	Visual Indicators (Power On Green, Off Green, Battery - Red)	Audible Indicators	Action/Recommendation
Power On - UPS is supplying conditioned utility power to the load.	Power On LED - ON	None	Not applicable
On Battery - UPS is supplying battery power to the load connected to the battery outlet.	Power On LED - ON and beeping sound	Beeping a short every 30 seconds	UPS is operating back to normal operation, or when UPS is turned off.
Low Battery Warning - UPS is supplying battery power to the load connected to the battery outlet and the battery is near exhaustion.	Applies Battery LED - Beeping	Rapid beeping (every 10 seconds)	UPS is operating back to normal operation, or when UPS is turned off.
Replace Battery - The battery is disconnected.	Power On LED - Beeping	Constant tone	UPS is turned off with the power switch.
The battery is turned charging, it is at the end of its useful life and must be replaced.	Applies Battery LED - Beeping	Constant tone	UPS is turned off with the power switch.
Overheat - The fan is - During On Battery operation a battery problem has occurred and a shutdown was initiated.	None	Constant tone	UPS is turned off with the power switch.
Power Meter - When the power meter is lit.	None	Beeping sound every 10 seconds	When the power meter is lit.
