## **Apocalypticism In The Bible And Its World A Comprehensive Introduction:**

**Apocalypticism in the Bible and Its World** Frederick J. Murphy, 2012-08-01 2013 Biblical Archaeology Society BAS Award for Best Book Relating to the New Testament Frank Moore Cross Award American Schools of Oriental Research 2013 Apocalypticism is not a peripheral topic in biblical studies It represents the central characteristic transformation of Hebrew thought in the period of the Second Temple It therefore constituted the worldview of Jesus Paul and the earliest Christians and it is the context in which the New Testament books were written In this volume Frederick Murphy defines apocalypticism while discussing its origins where it comes into play in the Hebrew Bible and how it relates to Jesus and the New Testament

**Apocalypticism in the Bible and Its World** Frederick James Murphy, 2012 A veteran scholar examines the origins and development of apocalypticism to help students better understand the thought world of the New Testament **The Jewish Apocalyptic Tradition and the Shaping of New Testament Thought** Benjamin E. Reynolds, Loren T.

Stuckenbruck, 2017-04-01 The contemporary study of Jewish apocalypticism today recognizes the wealth and diversity of ancient traditions concerned with the unveiling of heavenly matters understood to involve revealed wisdom the revealed resolution of time and revealed cosmology in marked contrast to an earlier focus on eschatology as such The shift in focus has had a more direct impact on the study of ancient pseudepigraphic literature however than in New Testament studies where the narrower focus on eschatological expectation remains dominant In this Companion an international team of scholars draws out the implications of the newest scholarship for the variety of New Testament writings Each entry presses the boundaries of current discussion regarding the nature of apocalypticism in application to a particular New Testament author The cumulative effect is to reveal as never before early Christianity its Christology cosmology and eschatology as expressions of tendencies in Second Temple Judaism **Paul and the Apocalyptic Imagination** Ben C. Blackwell, John K. Goodrich, Jason Maston, 2016-06-03 Since the mid twentieth century apocalyptic thought has been championed as a central category for understanding the New Testament writings and the letters of Paul above all But apocalyptic has meant different things to different scholars Even the assertion of an apocalyptic Paul has been contested does it mean the invasive power of God that breaks with the present age Ernst K semann or the broader scope of revealed heavenly mysteries including the working out of a many staged plan of salvation N T Wright or something else altogether Paul and the Apocalyptic Imagination brings together eminent Pauline scholars from diverse perspectives along with experts of Second Temple Judaism Hellenistic philosophy patristics and modern theology to explore the contours of the current debate Contributors discuss the history of what apocalypticism and an apocalyptic Paul have meant at different times and for different interpreters examine different aspects of Paul s thought and practice to test the usefulness of the category and show how different implicit understandings of apocalypticism shape different contemporary presentations of Paul s significance [John among the Apocalypses](#) Benjamin E. Reynolds, 2020-10-22 The Gospel of John has long been recognized as being distinct from the Synoptic Gospels

John among the Apocalypses explains John's distinctive narrative of Jesus's life by comparing it to Jewish apocalypses and highlighting the central place of revelation in the Gospel. While some scholars have noted a connection between the Gospel of John and Jewish apocalypses, Reynolds makes the first extensive comparison of the Gospel with the standard definition of the apocalypse genre. Engaging with modern genre theory, this comparison indicates surprising similarities of form, content, and function between John's Gospel and Jewish apocalypses. Even though the Gospel of John reflects similarities with the genre of apocalypse, John is not an apocalypse; but in genre theory terms, John may be described as a gospel in kind and an apocalypse in mode. John's narrative of Jesus's life has been qualified and shaped by the genre of apocalypse such that it may be called an apocalyptic gospel. In the final two chapters, Reynolds explores the implications of this conclusion for Johannine Studies and New Testament scholarship. More broadly, John among the Apocalypses considers how viewing the Fourth Gospel as apocalyptic Gospel aids in the interpretation of John's appeal to Israel's Scriptures and Mosaic authority and examines the Gospel's relationship with the book of Revelation and the history of reception concerning their writing. An examination of Byzantine iconographic traditions highlights how reception history may offer a possible explanation for reading John as apocalyptic Gospel.

**Augustine's Apocalyptic Political Theology in the Evil Saeculum** Pung Ryong Kim, 2024-09-16  
Augustine's Apocalyptic Political Theology in the Evil Saeculum investigates Augustine's apocalyptic political theology under the premise that he perceived the saeculum or this age as evil. Augustine views the saeculum as wicked because of the activity of the devil and demons. For Augustine, the devil perverted our social life and politics by mediating the false collective memory of the created world, social life, and politics through media such as various religious, cultural, liturgies, and literary works. In particular, the demons reinforced Roman citizens' amor sui, amor laudis, and libido dominandi by employing pagan rituals and literature that mediated the collective memory of the imperial period, justifying the existence and expansion of the empire. As such, this book explores the socio-political implications of Augustine's demonology.

**Emotions, Moral Formation, and Christian Politics** Jonathan M. Cahill, 2024-08-22  
This volume addresses the social-relational nature of moral formation, emotions, and moral agency. Drawing on Barth's theological anthropology and his relational conception of the self, Cahill argues that Barth envisions moral progress as rooted in the growth of the community. Cahill also explores Barth's view of emotion in conversation with the study of emotions in psychology, sociology, neuroscience, and philosophy. Building on Barth and these other disciplines, Cahill argues for a relational and cognitive conception of emotions while highlighting emotions' critical role in regulating group and social relations. Emotions are fundamental to interpersonal interactions, to group relations, and for the reinforcement and disruption of social structures. This account of moral formation and emotion is illustrated through the example of climate change. A community shaped by love for God, solidarity with other creatures, and a concern for all of creation leads to an awareness of hegemonic forces and fosters emotions shaped by the kingdom of God that enables the struggle for climate justice.
