[**Mastering the Travel Intermediaries**](#) Ben Vinod,2024-06-25 This book chronicles the role of travel intermediaries global
distribution systems GDS travel management companies TMC and online travel agencies OTA in the distribution of travel
products The book covers the historical development of these intermediaries and explores their current state and future
prospects Almost six decades after the introduction of computerized reservations systems and four decades after the
introduction of Global Distribution Systems that allowed travel agents to make automated airline bookings the distribution of
air products is amid a major transition A fundamental change is pricing power which shifts from the GDSs to the airlines for
the indirect channel These changes are driven by advancements in technology market economics and airline cost controls
leading to the emergence of new revenue models that will permanently alter the landscape of air distribution As a result
travel intermediaries are experiencing the effects of these turbulenttimes and must adopt innovative approaches and
initiatives to adapt and transform their business models rather than maintaining the status quo In addition to the ongoing
transformation over the next decade the advancements in emerging technologies like blockchain and decentralized digital
identity will further revolutionize the distribution landscape across all sectors of the travel industry [**OAG Business Travel**](#)
