Apparitions Architecture That Has Disappeared From Our Cities:

Apparitions T. John Hughes, 2015-03-10 Apparitions is a photography project about buildings that have vanished from our cities. Ghosted pictures of these structures are combined with current photos of their former locations in single images with informative text panels to outline the design aesthetics. This unique aesthetic approach provides an engaging way of telling stories of change in our built environments exploring the a wonderful historical narrative that commemorates architecture in space and time a way to showcase the preservation of memory. National in scope and including a variety of building types Apparitions comprises photographs from more than sixty cities across the United States [Posthumous Images](#) Chad Elias, 2018-09-07 For almost two decades of its history 1975-90 Lebanon was besieged by sectarian fighting, foreign invasions and complicated proxy wars. In Posthumous Images Chad Elias analyzes a generation of contemporary artists who have sought in different ways to interrogate the contested memory of those years of civil strife and political upheaval. In their films, photography, architectural projects and multimedia performances these artists appropriate existing images to challenge divisive and violent political discourses. They also create new images that make visible individuals and communities that have been effectively silenced, rendered invisible or denied political representation. As Elias demonstrates, these practices serve to productively unsettle the distinctions between past and present, the dead and the living, official history and popular memory. In Lebanon, the field of contemporary art is shown to be critical to remembering the past and reimagining the future in a nation haunted by a violent and unresolved war [American Architect and the Architectural Review](#), 1889 [On Architecture, the City, and Technology](#) Association of Collegiate Schools of Architecture, 1990

Proceedings of the 8th Annual ACSA Association of Collegiate Schools of Architecture Conference held February 1990 at the U of Southern California. Thirty three contributions address issues connected with technology and the metropolis, society, aesthetics, drawing, representation, the culture of modernity, architectural design, building, construction, teaching, and the landscape. The Place of Shells Mai Ishizawa, 2025-03-11 Winner of the Akutagawa Prize, a masterful novel about loss and memory in the aftermath of a horrifying ecological disaster. In the summer of 2020, as Europe is beginning to open back up after the first phase of the pandemic, a young Japanese woman based in the German city of Göttingen is working on a PhD about the iconography of medieval saints. She waits at the train station to meet her old friend from graduate school, Nomiya, who died nine years earlier in the 2011 earthquake and tsunami disaster in Japan but has suddenly reemerged without any explanation. When Nomiya arrives, the narrator guides him through Göttingen's scale model of the solar system, talking about her studies, her roommate, and their mutual friends. Yet it isn't long before his spectral presence in the city begins to fray the narrator's psyche and destabilize the world beyond: eerie discoveries are made in the forest, Pluto begins disappearing and reappearing, and snags run in time's fabric. The narrative continues to spiral and unfold to include the Japanese physicist Terada Torahiko, mysteriously sprouting
