Borderscaping: Imaginations and Practices of Border Making Dr Chiara Brambilla, Dr Jussi Laine, Professor Gianluca Bocchi, Professor James W. Scott, 2015-12-28 Using the borderscapes concept this book offers an approach to border studies that expresses the multilevel complexity of borders from the geopolitical to social practice and cultural production at and across the border Accordingly it encourages a productive understanding of the processual de territorialized and dispersed nature of borders and their ensuring regimes in the era of globalization and transnational flows as well as showcasing border research as an interdisciplinary field with its own academic standing Contemporary bordering processes and practices are examined through the borderscapes lens to uncover important connections between borders as a challenge to national and EU policies and borders as potential elements of political innovation through conceptual re framings of social political economic and cultural spaces The authors offer a nuanced and critical re reading and understanding of the border not as an entity to be taken for granted but as a place of investigation and as a resource in terms of the construction of novel geo political imaginations social and spatial imaginaries and cultural images In so doing they suggest that rethinking borders means deconstructing the interweaving between political practices of inclusion exclusion and the images created to support and communicate them on the cultural level by Western territorialist modernity The result is a book that proposes a wandering through a constellation of bordering policies discourses practices and images to open new possibilities for thinking mapping acting and living borders under contemporary globalization

practice and academia it also makes a methodological contribution by pushing the boundaries of reflexivity in interpretive International Relations IR research Analyzing three main sites in Central and Eastern Europe CEE the book challenges conventional critical wisdom on EU bordering in the Schengen zone at its external frontiers and in its Eastern neighborhood In so doing it sheds new light on the politics of post communist transitions as well as the contemporary politics of CEE It also shows how EU bordering and its relations to identities and orders created great benefits for many Europeans but also hindered the lives of many others and became self defeating This book is a must read for scholars students and policy makers interested in a better understanding of Critical Border Studies CBS in particular and International Relations in general It will also appeal to anyone interested in CEE or wishing to get a deeper understanding of Russia s war and the fight for Europe s future

Cross-Border Cooperation as Conflict Transformation Maria-Adriana Deiana, Milena Komarova, Cathal McCall, 2022-02-27 Has European integration helped to build peace in Europe and its neighbourhood The book addresses this question through theoretically and empirically informed case studies that explore the successes of and the challenges to EU cross border cooperation as a tool for conflict transformation Conceptually the contributors link the question of transforming conflict to changing

understandings of borders and bordering Empirically the contributions represent case studies of practices and discourses of EU sponsored cross border cooperation and challenges to it The case studies encompass the multiple geographical perspectives of the EU internal boundaries its sometimes disputed external borders and borders involving third countries From a thematic point of view the collection focuses on the intersection of two levels at which bordering processes unfold and are enacted the level of governance devolution and international intervention and that of grass roots or civil society efforts including cultural cooperation and artistic production The collection thus offers a kaleidoscopic view of border politics and conflict that zooms in and out of the EU frontiers and their geopolitics of peacebuilding security and cooperation The chapters in this book were originally published as a special issue of the journal *Geopolitics* **Territorial Impact**

The Routledge Handbook of European Borderlands revisits and reassesses the concept of borderlands in Europe balancing case specific perspectives with rich theoretical and conceptual avenues of research The significance of the transformations after the fall of the Soviet Union made European borders central to the emergence of border studies as an emerging field of study and since then the financial crisis rising migration Brexit and the Covid 19 pandemic have continued to make European borderlands a focus of research national and international policy media and everyday concern Bringing together a wealth of cross cutting and empirically rigorous international scholarship the handbook investigates European borderlands as spaces of encounter and political social and cultural change This book depicts borderlands as both fundamentally relational and ambiguous products of fanciful geographical imagination as well as real and lived places in which communities engage in different forms of integration differentiation and contestation at many levels of political economic geographic and social interaction Drawing on a range of different disciplinary perspectives the handbook covers key topics such as security

migration social inequality and justice cross border governance cooperation and development environmental threats health and disease and conflicts over citizenship sovereignty and territory This handbook provides the perfect guide to understanding the multilayered complexities surrounding borderlands and as such will be of interest to researchers across the fields of geography politics migration studies international relations anthropology sociology tourism cultural studies and European studies *Bordes, límites, frentes e interfaces* Sergio Braticevic, Constanza Tommei, Alejandro Rascovan, 2017

Placing the Border in Everyday Life Reece Jones, Corey Johnson, 2016-04-22 Bordering no longer happens only at the borderline separating two sovereign states but rather through a wide range of practices and decisions that occur in multiple locations within and beyond the state's territory Nevertheless it is too simplistic to suggest that borders are everywhere since this view fails to acknowledge that particular sites are significant nodes where border work is done Similarly border work is more likely to be done by particular people than others This book investigates the diffusion of bordering narratives and practices by asking who borders and how *Placing the Border in Everyday Life* complicates the connection between borders and sovereign states by identifying the individuals and organizations that engage in border work at a range of scales and places This edited volume includes contributions from major international scholars in the field of border studies and allied disciplines who analyze where and why border work is done By combining a new theorization of border work beyond the state with rich empirical case studies this book makes a ground-breaking contribution to the study of borders and the state in the era of globalization **International Boundaries in a Global Era** Lawrence Herzog, Keith J.

Hayward, 2015-10-22 As we move deeper into the 21st century globalisation continues to transform the spaces around

international borders and the social processes cultural practices economies and political dynamics within and between these spaces Drawing from examples on the US Mexico border with comparisons to Europe this book examines how border regions have become important places in their own right areas where people live work create art where companies invest crimes occur and security is a concern They are spaces that need to be better understood and managed especially given the cross national and global forces acting upon them This book was published as a special issue of Global Society

Placing the Border in Everyday Life Reece Jones,Corey Johnson,Assoc Prof Jones Reece,Asst Prof Johnson Corey,2014-01-01 Bordering no longer happens only at the borderline separating two sovereign states but rather through a wide range of practices and decisions that occur in multiple locations within and beyond the state s territory Nevertheless it is too simplistic to suggest that borders are everywhere since this view fails to acknowledge that particular sites are

significant nodes where border work is done Similarly border work is more likely to be done by particular people than others This book investigates the diffusion of bordering narratives and practices by asking who borders and how *Placing the Border in Everyday Life* complicates the connection between borders and sovereign states by identifying the individuals and organizations that engage in border work at a range of scales and places This edited volume includes contributions from major international scholars in the field of border studies and allied disciplines who analyze where and why border work is done By combining a new theorization of border work beyond the state with rich empirical case studies this book makes a ground breaking contribution to the study of borders and the state in the era of globalization *Invisible Borders in a*

Bordered World Alexander C. Diener, Joshua Hagen, 2022-09-02 This book critically challenges the usual territorial understanding of borders by examining the often messy internal transborder ambiguous and in between spaces that co exist with traditional borders By considering those less visible aspects of borders the book develops an inclusive understanding of how contemporary borders are structured and how they influence human identity mobility and belonging The introduction and conclusion provide theoretical and contextual framing while chapters explore topics of global labor and refugees unrecognized states ethnic networks cyberspace transboundary resource conflicts and indigenous and religious spaces that rarely register on conventional maps or commonplace understandings of territory In the end the volume demonstrates that despite being invisible on most maps these borders have a very real material and tangible presence and consequences for those people who live within alongside and across them **Routing Borders Between Territories, Discourses and**

Practices H. Van Houtum, Eiki Berg, 2018-06-14 This title was first published in 2003 This multi disciplinary reading focuses on the latent meaningful and contextual strategies that are often implied and included in bordering processes It demonstrates that the border as a concept is not so much an object but rather an ongoing process The book also consciously and provocatively balances the modernist trap of universalism exclusive ordering and state centrism and the postmodernist trap of moral nihilism Leading specialists in their fields provide illustrative case studies from Europe and Asia making a major contribution to border studies *Challenged Borderlands* Vera Pavlakovich-Kochi, Barbara J. Morehouse, 2017-03-02

In the early 1990s borders within Europe and between the United States and Mexico began to open The increasing flow of goods capital ideas and people across boundaries promised to reduce physical and cognitive distances Simultaneously challenges to identity have arisen within and between the European nation states driven not only by internal cultural and political dynamics but also by processes of globalization Concurrently the US Mexican border emerged in public consciousness as a location of new opportunities largely due to public perception of the benefits of the North American Free Trade Agreement NAFTA This book explores some of the contradictory yet simultaneous processes affecting border regions A team of leading scientists offers a wide range of perspectives on global national regional and local processes and provides a useful matrix for understanding their complex multilayered implications Key concepts such as globalization borders and

identities are illustrated through local and regional case studies Border Politics in a Global Era Kathleen Staudt, 2017-06-16 Initially research in border studies relied mainly on generalizations from cases in the US Mexico borderlands before subsequently burgeoning in Europe Border Politics in a Global Era seeks to expand the study further to include the post colonial South in response to the major challenge of interdisciplinary border studies to explore borderlands in many contexts with and across a variety of states including the so called developing post colonial states Culled from decades of firsthand observations of borders from around the world and written with a critical and gender lens the text is framed with attention to history geography and the power of films and travelogues to represent people as others Professor Kathleen Staudt advances border concepts categories and theories to focus on trade migration and security highlighting the importance of states their length of time since independence and border bureaucrats discretionary practices Drawing on her Border Inequalities Database for a global perspective Staudt calls for reducing inequalities and building institutions in the common grounds of borderlands The book features maps and other visuals with lists of links at the close of most chapters Broadly comparative in nature Border Politics in a Global Era will appeal not only to students of border studies it will also stimulate attention in comparative politics international studies and political geography
