How to Become a Successful IT Consultant Dan Remenyi, 2013-06-17 How to Become a Successful IT Consultant is a practical book for anyone considering setting themselves up as an IT consultant. It is essential reading for those contemplating such a career change. Today IT consulting has become a major opportunity for many IT professionals who want to work for themselves. It is no longer only the domain of the high flying international organization. In fact tens of thousands of IT professionals are leaving their regular jobs to set up as IT consultants on their own. Although there are many consulting opportunities available, it is quite a challenge to make a success of your own IT consulting business. There are a lot of things to think about and many decisions to be made. For those who get it right, there is a very exciting and highly lucrative business career ahead. This book takes the IT professional through all the key issues which have to be understood and explains how to optimize your chances of developing a long term IT consulting business of your own. This practical book explains what is involved in setting up your own business as an IT Consultant. It explains the opportunities involved and gives practical advice as to how to take advantage of them. The book looks at the full range of issues concerned with getting started and maintaining your business and gives practical guidelines about how to face the many challenges which you will encounter if you leave your job and set up on your own. Amongst the many issues involved, this book specifically addresses how to find clients, how to get more business and the opportunities areas available, how to price your services, the funding you will require, how to plan your consulting assignments. And much more. This book is an essential reading for anyone who is seriously thinking about taking this big career step.

services the funding you will require how to plan your consulting assignments And much more This book is an essential reading for anyone who is seriously thinking about taking this big career step **How to Be a Successful Consultant** Don Matlock, 2019-06-01 Written in an easy to read style this work is suitable for anyone who operates as a consultant How to be a Successful Consultant contains strategies and techniques for increased success by focusing on key topics such as self promotion communication building credibility and building and maintaining relationships If you have decided to become an independent consultant you face two challenges being good at what you do and being good at bringing in the business You might be a management consultant an architect a writer a trainer an engineer a product placement expert a designer a stylist a musician a financial advisor a computer systems analyst or something else all occupations that require specific and different sets of skills However in every case you need another set of skills common to all knowing how to seek obtain and serve clients Thats where this book comes in Youll find strategies and techniques to help you be more successful in here Its about planning building and maintaining relationships with your clients and prospects **How To Become A Consultant, How To Be Highly Successful As A Consultant, And How To Earn Revenue As A Consultant** Dr. Harrison Sachs, 2021-02-11 This essay sheds light on how to become a consultant explicates how to be highly successful as a consultant and elucidates how to earn revenue as a consultant While becoming a consultant may seem be an eminently cumbersome expensive time consuming and daunting undertaking it is viably possible to become a consultant Much to the relief of prospective consultants it is possible to become a consultant in a time span of less than half of a decade and the journey to become a consultant is not as lengthy as the journey to pursue certain other occupations such as the occupations of a medical doctor or attorney The pathway that a prospective consultant can follow to become a consultant is fraught with challenges that are not a cinch to surmount It can be arduous to fulfill the duties of a consultant Consultant skills are highly desirable skills to possess As of February of 2021 only an infinitesimal fraction of one percent of the global population are employed as consultants in the U S for instance less than 2 175 500 are employed as consultants even though the U S population is comprised of over 328 000 000 people as of February of 2021 As of February of 2021 less than 663% of people in the U S are employed as consultants This means that out of 151 random people in the U S about only one person at most would be employed as a consultant as of February of 2021 As of February of 2021 it was estimated that there were more medical doctors and attorneys as an aggregate in the U S than consultants in the U S even though it takes far more years to fulfill the ample mandatory requirements to become a medical doctor or attorney than it takes to fulfill the mandatory requirements to become a consultant As of February of 2021 there are no mandatory requirements that need to be fulfilled for a person to become a consultant As of February of 2021 the economy is unequivocally in dire need of more consultants especially since they are able to help companies to ameliorate their operational efficiencies Having subpar operational efficiencies amplifies a company s operating costs Neglecting to optimize operational efficiencies can undermine a company s

profitability potential Companies should aim to eliminate non value adding activities in their operational processes Having needless waste in workflows can undermine a company s profitability potential The job of a consultant is typically to look at what an organization does as a whole then work to increase efficiency in most areas Specifically they strive to render a business more profitable usually by helping the business owners to reduce costs and grow revenue streams In order to achieve this objective the consultant might recommend personnel changes new systems alternative practices or new procedures to be implemented Companies should not only aim to bolster their operational efficiencies but should also strive to minimize their operational inefficiencies Companies not only rely on consultants to help them to enhance their operational efficiencies but to also help them to amplify their sales volume revenue and profits Freelance consultants are not limited to furnishing their service offerings to a single client Most consultants are self employed and work on a contractual basis Freelance consultants are able to work remotely customize their own schedule and furnish their service offerings to clients from around the world There are a myriad of disparate types of consultants Some of the ample disparate types of consultants encompass business consultants management consultants marketing consultants social media consultant operations consultants financial advisory consultants information technology consultants and human resource consultants Certain consultants specialize in one niche area such as retail sales Consultants might then specialize further under that area of expertise focusing on points such as inventory control personnel and reorganizing corporate structure Consultants might also work with start up companies to design the best entry into the marketplace or alternatively may work with companies that are looking to downsize and sell their companies The competencies can vary from consultant to consultant It would ultimately behoove a prospective consultant to explore the various consultant career paths

*How to Become a Successful Consultant in Your Own Field* Hubert Ingram Bermont,1995 Cash in on Your Own Experience You possess a wealth of special knowledge and experience You are mature a veteran a survivor If you were an employer you d hire yourself in an instant Hubert Bermont did One day he was a successful but unfulfilled middle aged corporate executive The next day he was out on the street a victim of downsizing Within two years he was making considerably more money than ever before working as a full time self employed consultant Since then he has helped thousands of other people achieve similar success and he ll do the same for you In these pages he clearly explains how you can launch your own thriving consulting business and operate it for greater profit and personal satisfaction Hubert Bermont knows more about consulting than anyone Just as important he knows how to communicate his ideas simply and directly Regardless of your field he can

show you how to succeed My advice to you is to take his advice you just can't miss Eugene Hameroff director emeritus The Consultants Institute     How to Open and Operate a Financially Successful Wedding Consultant and Planning Business John N. Peragine, John N. Peragine, Jr., 2008 Book CD ROM The Association of Bridal Consultants estimates that billions are spent on weddings every year A good wedding consultant is of invaluable assistance to potential brides with no experience of the best and easiest way of going about things Advice can be given on all aspects of a wedding including the gown accessories even down to childcare This manual will get you started on the right footing     *How to Make It Big as a Consultant* William A. COHEN Ph.D., 2009-06-03 Getting started in consulting can be a tricky prospect How much should you charge What type of language should exist in the contract How can you find clients Written by a veteran consultant with hundreds of consulting engagements to his credit How to Make it Big as a Consultant is filled with detailed advice on every aspect of starting up and maintaining a highly lucrative consulting career The book helps readers get a handle on the legal tax and insurance issues involved in setting up and running the business understand what clients really need create the structure for an assignment proposals pricing contracts scheduling market the business solve clients problems using the Harvard Case Study Method Completely updated and revised throughout the fourth edition features new chapters on developing strategies for clients leading consulting teams and more This trusted guidebook will help any aspiring reader become the kind of outstanding consultant that clients will turn to again and again     *Disruptive consulting: How to consistently earn \$850/hour as a consultant* Adriaan Brits, 2015-11-09 Disruptive consulting How I consistently earn 850 hour as a consultant A consulting career offers unrivalled freedom and flexibility Proliferated by the mindset of alliance rather than employment which has gripped the corporate world it has become an increasingly desired occupation for most professionals Today more than ever corporates are aware of the benefits consulting offers namely access to a fresh perspective and expertise without the need to commitment or to involve a new player in the intricate sensitive or political aspects of the organization It really is a win win to both the consultant and the client however many consultants are yet to find a strategy to make sure their diaries duly overbooked In this publication I am going to share with you how I consistently earn 850 hour as a solo consultant with clients chasing me to fill up my diary Just as Amazon disrupted retail and Airbnb disrupted hotels this publication is about how to disrupt the consulting industry You will learn powerful effective hacks to obtain highly paid consultancy work It is therefore assumed that you are already competent and professional in your field but that you are lacking opportunities for consulting and need a proven way to make sure clients will chase you for business and not the other way around However in this publication we are not going to focus on how to become competent in your field how to behave properly and professionally towards clients or for that matter how to draw up a legal agreement It is therefore not intended as a guide for incompetent individuals to pretend that they are consultants and to get paid for it Neither is it intended as a guide on how to access large pots of government funding without reciprocating value The good news is that the following four activities does not form part

of this proven strategy at all 1 Spending any money on advertising 2 Making any cold calls 3 Begging for referrals 4 Working as a slave for Facebook or any other social media platform to get noticed Since my background is in marketing I established a way of making my marketing activities self funded or as the CIA would call it living of the land In fact by the time a potential client contacts me most of the selling has already been done and it is more a matter of determining whether the client will be a good fit for me or not In all honesty whilst I have a MSC in Marketing and owned a few companies I would not go as far as to describe myself as the world s leading authority on consulting however I have developed one of the most innovative ways to ensure that my diary is ALWAYS full and that I can decline any work which I do not think is going to be a good fit The model that we are going to discuss is perfectly suitable for consultants in the areas of Business Finance IT Marketing Sales Security and a range of professions Whether you are a technical business or executive consultant the principles will still apply Please read my feedback on various digital channels before starting with the book Enjoy your newly found profession
