Mysterious Travelers Zack Kruse, 2021-02-01 2022 Honorable Mention Recipient of the Charles Hatfield Book Prize from the Comics Studies Society Steve Ditko 1927 2018 is one of the most important contributors to American comic books As the cocreator of Spider Man and sole creator of Doctor Strange Ditko made an indelible mark on American popular culture Mysterious Travelers Steve Ditko and the Search for a New Liberal Identity resets the conversation about his heady and powerful work Always inward facing Ditko s narratives employed superhero and supernatural fantasy in the service of self examination and with characters like the Question Mr A

and Static Ditko turned ordinary superhero comics into philosophic treatises Many of Ditko's philosophy driven comics show a clear debt to ideas found in Ayn Rand's Objectivism Unfortunately readers often reduce Ditko's work to a mouthpiece for Rand's vision Mysterious Travelers unsettles this notion In this book Zack Kruse argues that Ditko's philosophy draws on a complicated network of ideas that is best understood as mystic liberalism Although Ditko is not the originator of mystic liberalism his comics provide a unique window into how such an ideology operates in popular media Examining selections of Ditko's output from 1953 to 1986 Kruse demonstrates how Ditko's comics provide insight into a unique strand of American thought that has had a lasting impact
