The following chapter considers the essential skills and materials needed by academic advisers of all types. Because of the importance of college as preparation for a vocation, a chapter explores the link between career counseling and other forms of advising. A lengthy discussion of the needs of disabled students, adult students, and other special populations follows, along with a look at the needs of specific racial and ethnic groups. The closing chapters treat important professional issues including evaluation and professional development. Beyond Foundations Thomas J. Grites, Marsha A. Miller, Julie Givans Voler, 2016-09-02. Sharpen advising expertise by exploring critical issues affecting the field. Beyond Foundations, a core resource for experienced academic advisors, gives practitioners insight into important issues affecting academic advising. In addition to gaining understanding of foundational concepts and pressing concerns, master advisors engage with case studies to clarify their roles as educators of students, as thought leaders in institutions, and as advocates for the profession. Pillar documents, the NACADA Core Values, NACADA Concept of Academic Advising, and CAS Standards serve as sources of both information and inspiration for those seeking to improve advising. New strategies inform advisors helping a diverse student population delineate meaningful educational goals. Each chapter prompts productive discussions with fellow advisors interested in cultivating advising excellence. To promote advisor influence in higher education, experienced contributors explain new trends including the impact of external forces and legal issues on postsecondary institutions and the evolution of advising as a profession and a field of inquiry. Expert insight and practical focus contribute to the development of experienced advisors. Use existing resources in new ways to master advising roles and encourage student success. Apply theory to advance advising practice. Create and optimize professional development opportunities. Establish recognition for the contributions of academic advisors to the institution and higher education. Face challenges created by the changing higher education landscape. Advisors must meet the expectations of students, parents, faculty members, administrators, and outside agencies, all while navigating an increasingly complex range of issues presented by a student population unlike any that has come before. Beyond Foundations provides the insight and clarity advisors need to help students achieve their educational goals and to advance the field. **Careers For Dummies**
