

Brownfields

- Brownfields are abandoned industrial and commercial sites that are contaminated (e.g. factories, old landfills, gas stations).
- 450,000 – 600,000 sites exist in the U.S., many of them in economically stressed inner cities.
- Many of these sites can be cleaned up and reborn as parks, athletic fields and neighborhood.

Brownfields Charles Bartsch, Elizabeth Collaton, 1997-01-14 Virtually every city in the nation's older industrial regions no matter its size grapples with the challenge of unused or abandoned manufacturing facilities and other industrial sites Local public officials economic development practitioners and site owners who have sought to revitalize fallow industrial properties face daunting challenges contamination of the buildings equipment and surrounding land and water Public concern about health effects from hazardous chemicals changing environmental law and evolving private sector development and financing priorities have made it increasingly difficult for communities to restore and reuse former manufacturing sites This study sponsored by the Northeast Midwest Institute offers analysis and practical guidance on how these blighted areas brownfields have been and can be brought back to life

Brownfields handbook : how to manage federal environmental liability risks., 2002 Brownfield Sites III C. A. Brebbia, 2006 This book focuses on the problems facing the public and private sectors and the engineering and scientific communities in terms of the decrease of available new land for development purposes Given the economic and social benefits of brownfields redevelopment there is a need for

guidance on processes that ensure the acceptability and therefore viability of such redevelopment The preparation of the guidance requires further research as well as the sharing of information lessons and experience among experts in this field Featuring papers from the Third International Conference on Prevention Assessment Rehabilitation and Development of Brownfield Sites the text will be vital to practitioners and businessmen in industry and commerce as well as those in research organisations interested in the problems facing the prevention assessment rehabilitation and development of brownfields The papers published in the book are grouped into the following sections Development Issues Environmental Assessment Risk Assessment and Management Cleanup Methodologies Case Studies Community and Public Involvement Lessons from the Field Modelling and Assessment Monitoring of Contaminated Sites

Brownfields: Redeveloping Environmentally Distressed Properties Harold J. Rafson, Robert N. Rafson, 1999-07-05 The most practical up to date guide for turning Brownfields into Greenfields This ready to use how to manual edited by active developers who have bought remediated and sold brownfields gives you a commanding look at one of today s leading environmental issues Filled with the latest hands on tools Harold and Robert Rafson s step by step book simplifies the task of removing the barriers to redevelopment that plague environmentally distressed properties Brownfields goes beyond the legal and technical issues that preoccupy other current books to focus on all the critical aspects of putting together a successful brownfields project mortgages marketing and more Complete with case studies drawn from the authors own experience this guide is required reading not just for owners or developers but for every stakeholder from environmental regulators to bankers realtors and prospective buyers

Brownfields Redevelopment , **Technical Approaches to Characterizing and Cleaning Up Brownfields Sites** ,2002 Reclaiming Brownfields Richard C. Hula, 2016-03-23 The environmental legacy of past industrial and agricultural development can simultaneously pose serious threats to human health and impede reuse of contaminated land The urban landscape around the world is littered with sites contaminated with a variety of toxins produced by past use Both public and private sector actors are often reluctant to make significant investments in properties that simultaneously pose significant potential human health issues and may demand complex and very expensive cleanups The chapters in this volume recognize that land and water contamination are now almost universally acknowledged to be key social economic and political issues How multiple societies have attempted to craft and implement public policy to deal with these issues provides the central focus of the book The volume is unique in that it provides a global comparative perspective on brownfield policy and examples of its use in a variety of countries **Brownfields Revitalization Activities and State Response Programs** United States. Congress. House. Committee on Transportation and Infrastructure, 2006 *Land & Community Revitalization* United States. Environmental Protection Agency. Region I, 2002 Turning Brownfields Into Greenbacks Robert Allan Simons, 1998 A pragmatic guide to redeveloping brownfields this book offers realistic methods and techniques to turn contaminated land into a profit opportunity It offers tips on managing the brownfields redevelopment process including

exclusion strategies and state voluntary clean up programmes Brownfields Redevelopment Enhancement Act United States. Congress. House. Committee on Financial Services,2002 *Principles of Brownfield Regeneration* Justin Hollander,Niall Kirkwood,Julia Gold,2010-09-02 The U S EPA defines brownfields as idle real property the development or improvement of which is impaired by real or perceived contamination The authors of *Principles of Brownfield Regeneration* argue that compared to greenfields farmland forest or pasturelands that have never been developed brownfields offer a more sustainable land development choice They believe that brownfields are central to a sustainable strategy of thwarting sprawl preserving or regenerating open space reducing greenhouse gas emissions and reinvesting in urbanized areas Drawing on interviews with people involved in brownfield projects as well as on their own considerable expertise the authors use five case studies to describe the steps for cleaning up a site and creating viable land for development or open space
