## **Antebellum Culture And Reform Study Guide:**

Study Guide to Accompany the American People, Volume 1 To 1877 Neal A. Brooks, Ingrid I. Sabio, Allen F. Davis, Peter J. Frederick, Allan M. Winkler, 2003-03      Directory of American Scholars, 1982      **Material Culture** Kenneth L. Ames, 1985

Theatre Culture in America, 1825-1860 Rosemarie K. Bank, 1997-01-28 A study of pre Civil War American theatre

**The Children's Table** Anna Mae Duane, 2013-06-01 Like the occupants of the children's table at a family dinner scholars working in childhood studies can seem sidelined from the adult labor of humanities scholarship. The Children's Table brings together scholars from architecture, philosophy, law and literary and cultural criticism to provide an overview of the innovative work being done in childhood studies. A transcript of what is being said at the children's table. Together these scholars argue for rethinking the academic seating arrangement in a way that acknowledges the centrality of childhood to the work of the humanities. The figure we now recognize as a child was created in tandem with forms of modernity that the Enlightenment generated and that the humanities are now working to rethink. Thus the growth of childhood studies allows for new approaches to some of the most important and provocative issues in humanities scholarship: the viability of the social contract, the definition of agency, the performance of identity and the construction of gender, sexuality and race. Because defining childhood is a means of defining and distributing power and obligation, studying childhood requires a radically altered approach to what constitutes knowledge about the human subject. The diverse essays in The Children's Table share a unifying premise to include the child in any field of study realigns the shape of that field, changing the terms of inquiry and forcing a different set of questions. Taken as a whole, the essays argue that at this key moment in the state of the humanities, rethinking the child is both necessary and revolutionary. Contributors: Annette Ruth Appell, Sophie Bell, Robin Bernstein, Sarah Chinn, Lesley Ginsberg, Lucia Hodgson, Susan Honeyman, Roy Kozlovsky, James Marten, Karen Sánchez-Eppler, Carol Singley, Lynne Vallone, John Wall.

Observing God William J. Astore, 2017-07-05 Scottish theologian, educator, astronomer and popularizer of science. Thomas Dick (1774-1857) promoted a Christianized form of science to inhibit secularization, to win converts to Christianity and to persuade evangelicals that science was sacred. His devotional theology of nature made radical claims for cultural authority. This book presents the first detailed analysis of his life and works. After an extended biographical introduction, Dick's theology of nature is examined within the context of natural theology and also his views on the plurality of worlds, the nebular hypothesis and geology. Other chapters deal with Dick's use of aesthetics to shape social behaviour for millennial purposes and with the publishing history of his works, their availability and their reception. In the final part, the author explores Dick's influence in America. His pacifism won him Northern evangelical supporters while his writings dominated the burgeoning field of popular science, powerfully shaping science's cultural meaning and its uses.

**The Unfinished Nation** Alan Brinkley, 2000      **Rhetoric and Reform in the Progressive Era** J. Michael Hogan, 2003 The Progressive Era witnessed a rhetorical renaissance that changed how Americans talked about politics and society. Marking a

clean break from the rhetoric of the Gilded Age the discourse of progressivism represented a new common language of political and social analysis that was reform oriented moralistic and optimistic about the future Progressives shared a strong faith in public opinion and they revitalized the public sphere through a variety of initiatives to encourage public discussion and empower the citizenry Whatever their differences Progressives believed that a democratic public properly educated and deliberating freely represented the best hope for America in the modern age Rhetoric and Reform in the Progressive Era presents twelve major studies of the discourse of progressivism ranging from fresh interpretations of Theodore Roosevelt and Woodrow Wilson to new studies of the working class eloquence of Eugene Debs the debate between W E B Du Bois and Marcus Garvey and the peace advocacy of Jane Addams Other studies in this volume explore the rhetorical origins of the conservation movement and professional journalism chart the progress of the woman suffrage crusade and show how Progressive social thinkers planted the seeds of the Ku Klux Klan s resurgence in the 1920s Taken together these essays display the remarkable diversity and vitality of the Progressive rhetorical renaissance They show how robust democratic speech became a distinguishing characteristic of the Progressive Era
