Antiquities In Peril:

Antiquities Peril Trevor L. Christie,1967 **Illicit Antiquities** Neil Brodie,Kathryn Walker Tubb,2003-08-27 The exploitation of archaeological sites for commercial gain is a serious problem worldwide In peace and during wartime archaeological sites and cultural institutions both on land and underwater are attacked and their contents robbed for sale on an international antiquities market Objects are excavated without record smuggled across borders and sold for exorbitant prices in the salesrooms of Europe and North America In some countries this looting has now reached such a scale as to threaten the very survival of their archaeological and cultural heritage This volume highlights the deleterious effects of the trade on cultural heritage but in particular it focuses upon questions of legal and local responses How can people become involved in the preservation of their past and what in economic terms are the costs and benefits Are international conventions or export restrictions effective in diminishing the volume of the trade and the scale of its associated destruction

Cultural Property Law Sherry Hutt,2004 Cultural Property Law is a practical guide to the application and interpretation of the statutes and codes that direct the management protection and preservation of cultural property *Antique Gems and Rings: Text* Charles W. King,1872 **A Dictionary of Greek and Roman Antiquities, etc** William Smith,1875

Antiquities Acquired Catherine Philippa Bracken,1975 This is the extraordinary often shocking story of how Greece was despoiled of much of her treasures in the early nineteenth century The treasures that are now priceless exhibits in the great museums of the world Lord Elgin acquired the famous marbles that bear his name but he was not the only one to take part in a kind of free for all not so far removed from modern vandalism many amateur and semi professional collectors were at work taking what they could get for paltry sums bribes or nothing at all blissfully blind to the havoc they wrecked Miss Bracken has lived for long periods in Greece visiting sites of its classical civilisation Her interest in the spoliators was first aroused by the names carved with laborious care on many of the monuments one example is the column at Delphi inscribed by Lords Aberdeen and Byron This is a book that will fill in the often colourful background to Greek treasures in museums and Greece itself *Antique gems and rings* Charles William King,1872 **The Law of Wreck** Nicholas Gaskell,Craig

Forrest,2019-11-05 This book covers wreck law as an integrated whole going beyond the question of removal to include issues such as the ownership of wreck and how the law deals with the many commercial law problems arising after ships have been wrecked during the maritime commercial adventure The book offers authoritative guidance on the genesis and meaning of the Nairobi Wreck Removal Convention 2007 and the interpretation of its often complex provisions as they apply both to States trying to use its powers and to shipowners and liability insurers faced by its obligations The authors explain the increasingly complex inter relationship between linked areas of maritime law including salvage intervention and the overlapping international regimes which deal with pollution from oil bunkers or hazardous and noxious substances The book examines how a salvage operation transitions to wreck removal and links the liability provisions with the standard form international commercial contracts actually used by the industry to remove wrecks eg BIMCO's Wreckstage 2010 Wreckhire 2010 and Wreckfixed 2010 It also covers the complex requirements concerning the disposal of wrecks including the latest recycling regulations applicable in 2019 The Law of Wreck will be of value to shipping industry professionals insurers and

legal practitioners as well as academics and students of maritime law International Law and the Protection of Cultural Heritage Craig Forrest, 2010 The world's cultural heritage is under threat from war illicit trafficking social and economic upheaval unregulated excavation and neglect Over a period of almost fifty years the United Nations Educational Scientific and Cultural Organisation has adopted five international conventions that attempt to protect this cultural heritage This book comprehensively and critically considers these five UNESCO cultural heritage conventions The book looks at the conventions in the context of recent events that have exposed the dangers faced by cultural heritage including the destruction of cultural heritage sites in Iraq and the looting of the Baghdad museum the destruction the Buddhas of Bamiyan in Afghanistan the salvage of artefacts from the RMS Titanic and the illicit excavation and trade in Chinese Peruvian and Italian archaeological objects As the only existing work to consider all five of the cultural heritage conventions adopted by UNESCO the book acts as an introduction to this growing area of international law However the book does not merely describe the conventional principles and rules but critically evaluates the extent to which these international law principles and rules provide an effective and coherent international law framework for the protection of cultural heritage It is suitable not only for those schooled in the law but also for those who work with cultural heritage in all its manifestations seeking a broad but critical consideration of this important area of international law *Art and Archaeology*, 1921
