Between Past And Future Between Past And Future:

San Francisco's Ocean Trade, Past and Future Benjamin Cooper Wright,1911 *A Research Agenda for Organisational Continuity and Change* Tor Hernes,Miriam Feuls,2023-10-06 Research has overlooked the need for modern organisations to enact continuity during periods of change This Research Agenda addresses this by considering continuity and change as engaging in various forms of mutual interplay The underlying theme of this book is that change needs continuity just as continuity needs change **Yoga : The Supreme Science** Osho,2009 Drawing on the teachings of Patanjali Osho gives an entirely new perspective on the fundamental questions of life the nature of heaven religion and God For Osho it is not a question of being good or bad or of a God in the sky but of each individual becoming aware of his being and attaining kaivalya the ultimate state of enlightenment when the meditator goes beyond all desire This process draws on the inner science of yoga *The Future of Equality* Shlomi Segall,2025-05-15 Philosophers have been preoccupied with the future from time immemorial But for egalitarians the future of humanity constitutes a relatively new challenge The premise of this book is that a complaint based ideal of egalitarianism faces problems when applied to the future For one thing if we suppose that future people are destined to fare better than us say in terms of overall wellbeing then allowing humanity to flourish would then represent a net increase in terms of egalitarian complaints With respect to equality at least it would be better to refrain from bringing new life into being That seems absurd This is the Anti Natalist objection to egalitarianism Second any policy aimed at reducing future inequalities and indeed any population policy at large will in all likelihood affect the identity of those who will be born This familiar Non Identity problem poses unique problems for egalitarianism especially ones of the complaint model Arguably a person cannot have a complaint about being worse off than another when the only other alternative distribution is one in which she does not exist Put differently such a person lacks a standing to complain about this future inequality This can be referred to as the Non Identity objection or as the Standing objection to egalitarianism This book examines how to evaluate different scenarios for humanity's future from an egalitarian perspective It is argued that planning for the future does require egalitarian considerations but that egalitarianism also needs to be adapted to handle future persons As indicated a key challenge concerns how to evaluate mixed populations containing both necessary and possible persons The book proposes a pluralist approach combining egalitarianism with prioritarianism Prioritarianism itself also suffers unique problems when applied to the future chief among them the Separateness of Persons objection The book attempts to deflect these obstacles and aims to develop a coherent framework that maintains egalitarian principles while appropriately discounting the status of merely possible people Overall the book seeks to advance both our ethical assessment of humanity's future and our understanding of the nature of equality and distributive ethics more generally **Colloquies of common people, reported by J. Anstie** James Anstie,1902 *Florida, 1513-1913, Past and Future* George M. Chapin,1914 **Fact and Fiction** Albrecht Koschorke,2018-04-23 How can we develop a cultural theory

starting with the basic insight that human beings are storytelling animals Within literary studies narratology is a highly developed field However literary historians have not paid much attention to the large and small stories abounding in everyday discourse guiding all kinds of social activity and providing common ground for whole societies but also fueling controversies and hostilities Moreover narrative is not only a scholarly category but has come into use in many fields of social activity as a tool for cultural self fashioning This book is based on the assumption that to a large extent social dynamics is modeled in an aesthetic manner via narratives It explores the narrative organization of cultural spaces and time frames the mythological shaping of communities and adversaries and the co production of narratives and institutions aimed at stabilizing social life In this framework the epistemological problem looms large of how an instrument as unreliable as narrative can participate in the creation of a social consensus regarding truth This problem endows the general topics explored in this book with a particularly contemporary dimension

The Black Swan: Second Edition Nassim Nicholas Taleb, 2010-05-11 The most influential book of the past seventy five years a groundbreaking exploration of everything we know about what we don t know now with a new section called On Robustness and Fragility A black swan is a highly improbable event with three principal characteristics It is unpredictable it carries a massive impact and after the fact we concoct an explanation that makes it appear less random and more predictable than it was The astonishing success of Google was a black swan so was 9 11 For Nassim Nicholas Taleb black swans underlie almost everything about our world from the rise of religions to events in our own personal lives Why do we not acknowledge the phenomenon of black swans until after they occur Part of the answer according to Taleb is that humans are hardwired to learn specifics when they should be focused on generalities We concentrate on things we already know and time and time again fail to take into consideration what we don t know We are therefore unable to truly estimate opportunities too vulnerable to the impulse to simplify narrate and categorize and not open enough to rewarding those who can imagine the impossible For years Taleb has studied how we fool ourselves into thinking we know more than we actually do We restrict our thinking to the irrelevant and inconsequential while large events continue to surprise us and shape our world In this revelatory book Taleb will change the way you look at the world and this second edition features a new philosophical and empirical essay On Robustness and Fragility which offers tools to navigate and exploit a Black Swan world Taleb is a vastly entertaining writer with wit irreverence and unusual stories to tell He has a polymathic command of subjects ranging from cognitive science to business to probability theory Elegant startling and universal in its applications The Black Swan is a landmark book itself a black swan

Current Issues in Generative Hebrew Linguistics Sharon Armon-Lotem, Gabi Danon, Susan Deborah Rothstein, 2008 This volume presents a collection of specially commissioned papers devoted to analyzing the linguistics of Modern Hebrew from a number of perspectives Various aspects of Modern Hebrew grammar are discussed including the structure of the lexicon grammatical features and inflectional morphology as well as the grammaticalization of semantic and pragmatic distinctions The psycholinguistic issues

addressed include the acquisition of morphological knowledge the pro drop parameter and question formation as well as language use in hearing impaired native speakers The collection of these papers together in a single volume allows these phenomena to be considered not in isolation but in the context of the grammatical system of which the language is an expression As a consequence more general issues connected to Modern Hebrew begin to emerge such as the role of the inflectional morphological system in the grammar and a rich set of facts and analyses relevant for many related issues are made available to the reader *Philosophical Magazine*, 1925 *The Black Swan* Nassim Nicholas Taleb, 2009-10-13 In the author's point of view a black swan is an improbable event with three principal characteristics It is unpredictable it carries a massive impact and after the fact we concoct an explanation that makes it appear less random and more predictable than it was Why do we not acknowledge the phenomenon of black swans until after they occur Part of the answer according to Taleb is that humans are hardwired to learn specifics when they should be focused on generalities We concentrate on things we already know and time and time again fail to take into consideration what we don't know We are therefore unable to truly estimate opportunities too vulnerable to the impulse to simplify narrate and categorize and not open enough to rewarding those who can imagine the impossible *Incerto* NASSIM NICHOLAS. TALEB, 2021-05-04 The landmark five book series all together in one boxed set The Incerto is an investigation of opacity luck uncertainty probability human error risk and decision making when we don't understand the world expressed in the form of a personal essay with autobiographical sections stories parables and philosophical historical and scientific discussions in non overlapping volumes that can be accessed in any order The main thread is that while there is inordinate uncertainty about what is going on there is great certainty as to what one should do about it This boxed set includes FOOLED BY RANDOMNESS THE BLACK SWAN THE BED OF PROCRUSTES ANTIFRAGILE SKIN IN THE GAME *Managing the Future* Haridimos Tsoukas, Jill Shepherd, 2009-02-09 In this book leading authors explore ways in which organizations can develop their ability to manage the future An exploration of the ways in which organizations can develop their ability to manage the future Consists of ten papers written by authors from both sides of the Atlantic and from Asia all of whom are distinguished scholars in the fields of strategy or organizational learning Addresses key questions about how organizational foresight can be conceptualized and developed and the extent to which it is possible The papers are prefaced by a foreword from Spyros Makridakis and an introduction from the editors Helps to shape a new research agenda and so will be of interest to academics as well as to students and practitioners
