In fact, it's like an inherent part of the human condition. But did you know that it's so very harmful and thus forming your full potential. In this book, you will find out what it is and where it arises from. You will discover how it's endemic in our culture. You will also discover the universal feeling of vulnerability. Vulnerability means that we'll not openly admit failures and weaknesses. We'll build up a fortress around us with what we have. If you then manage to build a culture of vulnerability, it will work and at the end, you'll reach places of healing and find the true self more.

The title comes from a 1910 speech by Theodore Roosevelt given at the Sorbonne after his presidency about disavowing the non-participatory critics in favor of the man in the arena. Brown discusses where our fear of vulnerability comes from why we protect ourselves the price of disengagement and owning and engaging with vulnerability to transform ourselves into better if messier beings. Brown starts by introducing herself as a fifth generation Texan born to family with a lock and load approach that did not mesh with emotional vulnerability. She left corporate life and returned to school to be a social worker but the research and prediction control appealed to her more. During her doctoral process she became a qualitative researcher meaning the participants define the problem about the topic and then the researcher develops a theory and sees where it fits in the existing literature as opposed to proving/disproving a hypothesis. She studied shame and empathy and developed a theory of shame resilience.
