**SOLAR SYSTEM AND BEYOND** Mike Seeds and Dana Backman's goal is to help students use astronomy to understand science and use science to understand what we are. Fascinating and engaging this text illustrates the scientific method and guides students to answer these fundamental questions. What are we and How do we know? In discussing the interplay between evidence and hypothesis the authors provide not just facts but a conceptual framework for understanding the logic of science. The book vividly conveys their love of astronomy and illustrates how students can comprehend their place in the universe by grasping a small set of physical laws. Crafting a story about astronomy The authors show students how to ask questions to gradually puzzle out the beautiful secrets of the physical world. The revision addresses new developments in astrophysics and cosmology plus the latest discoveries including evidence of a new world beyond Pluto and new evidence of dark energy and the acceleration of the universe. Important Notice Media content referenced within the product description or the product text may not be available in the ebook version.

**Astronomy** Eric Chaisson, Stephen McMillan, 2007 A brief introductory astronomy book designed for readers with little or no scientific background. A Beginner's Guide uses an exceptionally clear writing style. The authors present a broad view of astronomy without complex mathematics yet the book discusses important concepts without simplification. The book's organization follows the popular and effective Earth Out progression starting with our planet and then moving through the solar system. A study of the Sun as a model star follows then the book covers the Milky Way Galaxy cosmology and the universe as a whole. Because of its easy to read yet comprehensive coverage of astronomy this book can serve as excellent reference material for those readers interested in learning about our universe. Personal Response System Through a partnership with Interwrite PRS this text is available with the PRS clicker system. The Instructor Resource Center on CD ROM contains conceptual clicker questions in PowerPoint.
