Priced at 99. Keynote is the new application that promises to bring to everyone the ability to create stunning professional quality presentations. It includes professionally designed themes, top end typography, animated charts and tables, and cinematic quality transitions. Keynote has Apple's traditional elegance and ease of use with intuitive controls and beautiful graphics. Keynote 1.0 has been positively reviewed by the press. Though Apple has not yet released any sales figures, it is clear that the software is gaining rapid adoption. According to MacCentral, the company's CFO was saying that its software sales were great, fueled by the release of iLife, Keynote and Final Cut Express. The First Looks reviews are just coming out now, but they are undeniably positive. This book shows users how to design compelling presentations swiftly using Keynote's advanced typography, gorgeous charts and included layout themes. Give a presentation pizzazz by using spiffy visual effects like slide transitions, builds and element effects. Easily manage a presentation's pace using Keynote's thumbnail viewer, slide navigator and
