She encourages the reader to consider the subjects of composition, planes and subject and expression while also examining the more practical topics of colour theory and colour mixing, how to work with pigment, canvas and priming, spatula techniques and working with unconventional backgrounds. All these elements build up into a vocabulary of visual pointers from which the reader can begin to explore their own adventurousness and creativity. Through the 20 beautiful projects that Petra demonstrates step by step, readers will learn how to create texture work with unusual tools and create soft transitions or high contrast. Her clarity of thought and inspirational advice will open your eyes to a whole new way of seeing your paintings and achieving the self-expression that leads to visually exciting and technically innovative work. For some of the projects, there are links to Petra's popular YouTube videos demonstrating how she created the individual paintings.
