Rindfleisch,2021-07-28 In Brothers of Coweta Bryan C Rindfleisch explores how family and clan served as the structural foundation of the Muscogee Creek Indian world through the lens of two brothers who emerged from the historical shadows to shape the forces of empire colonialism and revolution that transformed the American South during the eighteenth century Although much of the historical record left by European settlers was fairly robust it included little about Indigenous people and even less about their kinship clan and familial dynamics However European authorities imperial agents merchants and a host of other individuals left a surprising paper trail when it came to two brothers Sempoyaffee and Escotchaby of Coweta located in what is now central Georgia Though fleeting their appearances in the archival record offer a glimpse of their extensive kinship connections and the ways in which family and clan propelled them into their influential roles negotiating with Europeans As the brothers navigated the politics of empire they pursued distinct family agendas that at times clashed with the interests of Europeans and other Muscogee leaders Despite their limitations Rindfleisch argues that these archives reveal how specific Indigenous families negotiated and even subverted empire building and colonialism in early America Through careful examination he demonstrates how historians of early and Native America can move past the limitations of the archives to rearticulate the familial and clan dynamics of the Muscogee world **The Churchman** ,1896 The Death of a Scientist Alexander Vapirev,2018-09-24 A contemporary and detailed look at the reality behind the PhD degrees and postdoctoral fellowships in academia The book explores some of the most pressing issues and unique challenges currently facing the doctoral and postdoctoral programs both on a local institutional level and on a global one where multiple complex factors influencing and governing the academic

environment take place The interrelated nature of these challenges together with discussions over certain historical trends and demographics offer a unique perspective on some often overlooked topics such as academic advisors and mentoring increasing job insecurity career prospects mental issues discrimination and women in science ever growing need for funding increasing pressure for high profile research internationalization of science trends in university management higher education dynamics and government policies backed with references to published research national and international surveys and census data Today most of the PhD programs have been accommodated to the benefit of the university with disregard to any sustainable demand and supply job market strategies contrary to the original ideas behind their inception The result is an over flooded job market and huge underemployment rates among doctorate holders Infused with a narrative of a rich mix of personal experiences observations and impressions all dressed in humor mostly dark sarcasm irony disbelief and often outright criticism this text does not shy away from asking uncomfortable questions and even attempts to provide answers to some of them At the same time it also offers practical advice for those considering and those who already have dared to tread the PhD path **Monthly Bulletin of Books Added to the Public Library of the City of Boston** Boston Public Library,1902 **The Journal of the Armed Forces** ,1885 **The United States Army and Navy Journal and Gazette of the Regular and Volunteer Forces** ,1901 **Stanford University Bulletin** Stanford University,1976 **The Art Interchange** ,1885 Subject Guide to Books in Print ,1971
