**Handbook of Intellectual and Developmental Disabilities** John W. Jacobson, James A. Mulick, Johannes Rojahn, 2007-03-15 Changes within the interdisciplinary field of intellectual and developmental disabilities are evolving at a rapid pace. Clinicians, academics, administrators, and a variety of mental health providers alike need easy access to reliable information that enables them to stay abreast of the numerous advances in research, assessment, treatment, and service delivery within a real-world sociopolitical framework. To that end, the *Handbook of Intellectual and Developmental Disabilities* is an essential resource for any professional who works with this vulnerable population. This volume examines in detail the numerous advances in the field, summarizing major domains and emerging subspecialties into one eminently useful reference. Its contributors comprise a panel of the leading scientist-clinicians who offer much-needed insight and guidance into ongoing improvements in theory and practice as well as intervention and prevention. For example, the handbook opens with chapters that offer a comprehensive review of current definitions, classifications, etiology, and findings on the most prevalent conditions, including cerebral palsy, pediatric brain injury, genetic syndromes, and autism spectrum disorder. Provides a survey of psychological and educational service delivery systems available to people with intellectual disabilities. For example, several chapters focus on explaining how agencies work the politics of service delivery, residential versus day treatment, and program evaluation. Offers a wide range of assessment and diagnostic tools and tactics, including cognitive and adaptive behavior assessments, assessing for psychopathology, developmental screening, family assessment, and forensic applications. Reviews the latest evidence-based prevention and intervention strategies from social skills training to self-harm reduction to pharmacotherapy. Concludes with insightful chapters on the ethical issues, social acceptance, and advocacy. The *Handbook of Intellectual and Developmental Disabilities* makes clear the far-reaching impact these disorders have on individuals, their families, and society in general. For clinicians, researchers, and advanced-level graduate students, this volume is a must-have resource and reference.

*Assessing Culturally and Linguistically Diverse Students* Robert L. Rhodes, Salvador Hector Ochoa, Samuel O. Ortiz, 2005-04-04 This is the first book to present a practical problem-solving approach and hands-on tools and techniques for assessing English language learners and culturally diverse students in K-12 settings. It meets a crucial need among practitioners and special educators working in today's schools. Provided are research-based step-by-step procedures for conducting effective interviews with students, parents, and teachers, making the best use of interpreters, addressing special issues in the prereferral process, and conducting accurate, unbiased assessments of academic achievement, intellectual functioning, language proficiency, and acculturation. Among the book's special features are reproducible worksheets, questionnaires, and checklists, including several in both English and Spanish, in a ready-to-use large-size format. This book is in The Guilford Practical Intervention in the Schools Series.

**Pediatric Psychology** Thomas H. Ollendick, Carolyn S. Schroeder, 2003-07-31 One volume reference work with approximately 300 entries. Each entry will contain 5-8 references. Entries will be kept under 7 pages with limited references and cross-referenced to 5 other topics in the encyclopedias. **Testing Children** Sampson, Joseph, Weaver, 1984 The purpose of the book was originally to offer a relatively brief manual on the essentials of psychological assessments for the general classes of problems in children and youth that present themselves to psychologists in general practice. There are few psychological training programs that train clinicians to specialize in children. Experts in child clinical psychology have lamented the failings of adult oriented training programs in preparing practitioners to work with children and youth. Since adult programs make up the overwhelming majority of psychology programs in existence many psychologists who subsequently take positions in general practices find themselves faced with assessments for which they have had minimal training.
