programs in TESOL I frequently come across the frustration of students at centering their research interests on a particular topic and developing research questions which are worth pursuing so as to make a contribution to the field. This frustration stems from the fact that our field is so vast and interrelated that it is often impossible to properly address all that interests them. Hence I wholeheartedly welcome this most relevant and innovative addition to the research literature in the field of TESOL and Applied Linguistics. Coombe and Mohebbi have created a real tour de force that stands to inform budding researchers in the field for many years to come. Additionally the cutting edge depiction of the field and all it has to offer will no doubt update the research agendas of many seasoned researchers around the world. The 150 chapters are organized in a most powerful yet deceptively simple way offering a positioning within the topic suggesting questions that might direct inquiry and offering a basic set of bibliographic tools to start the reader in the path towards research. What is more the nine sections in which the chapters are organized leave no area of the field unexplored. **Assessing English Language Learners in the Content Areas** Florin Mihai, 2010-06-11 **Assessing English Language Learners in the Content Areas: A Research into Practice Guide for Educators** seeks to provide guidance to classroom teachers, staff developers, and test item designers who want to improve ELL assessment outcomes, particularly in the areas of math, science, and social studies. The first two chapters of the book establish the background for the discussion of content area assessment for ELLs, examining several important characteristics of this rapidly growing student population as well as critical legislation affecting ELLs and providing a description of various forms of assessment, including how ELL assessment is different from the assessment of English proficient students. Important assessment principles that educators should use in their evaluation of tests or other forms of measurement are provided. Other chapters review ELL test accommodations nationwide because surprisingly most teachers do not know what they can and cannot allow and the research on the effectiveness of these types of accommodations. The book analyzes the characteristics of alternative assessment, it discusses three popular alternative assessment instruments, performance assessment, curriculum based measurement, and portfolios, and makes recommendations as to how to increase the validity, reliability, and practicality of alternative assessments. The book proposes fundamental assessment practices to help content area teachers in their evaluation of their ELL progress.
