A Practical Study of Argument Trudy Govier, Reed, 1996-01-01      Practical Study of Argument Enhanced Edition Govier, 2013      **A Practical Study of Argument** Trudy Govier, 2009-02-23 Govier's THE PRACTICAL STUDY OF ARGUMENT gives students an accessible and yet rigorous introduction to sound argumentation Presenting an adequate amount of theory to explain why certain kinds of arguments are sound or not and bringing this theory to life through everyday illustrations and examples the text provides students with a comprehensive introduction to critical thinking along with a synthesis of formal and informal approaches to logic Important Notice Media content referenced within the product description or the product text may not be available in the ebook version      *Practical Study of Argument (Custom)* Govier, 2009      *Applied Ethics Primer* Letitia Meynell, Clarisse Paron, 2023-06-16 The Applied Ethics Primer offers a concise introduction to both basic argumentation and normative ethical theory The concepts discussed reflect the ethical theories that currently ground most professional ethics codes and debates in applied ethics More inclusive than many similar resources this primer gives students a sense of the truly global history of ethics while remaining squarely focused on providing practical tools for ethical decision making      *Revisions Made to A Practical Study of Argument, Third Edition* Trudy Govier, 1992      **A Practical Study of Argument** Trudy Govier, 1991 A classic in the field A PRACTICAL STUDY OF THE ARGUMENT is widely recognized for its solid treatment of such basic topics as the nature of argument argument structure premise acceptability propositional logic categorical logic analogy and fallacies Integrated and carefully organized the Third Edition continues to give students a practical understanding of different types of arguments by concentrating on good arguments as they occur in natural language      How Philosophers Argue Fernando Leal, Hubert Marraud, 2022-02-21 This volume presents a double argumentative analysis of the debate between Bertrand Russell and Frederick Copleston on the existence of God It includes an introduction justifying the choice of text and describing the historical and philosophical background of the debate It also provides a transcript of the debate based in part on the original recording The argumentative analyses occupy Parts I and II of the book In Part I the argumentative process is analysed by means of the ideal model of critical discussion the workhorse of pragma dialectics Part I shows how the two parties go through the four stages of a critical discussion It highlights the questions raised over and beyond the presiding question of whether God exists and examines almost a hundred questions that are raised Many are left in the air whereas a few others give rise to sundry sub discussions or meta dialogues In Part II the theoretical framework of argument dialectic is put to work argument structures are identified by means of punctuation marks argumentative connectors and operators allowing to see the argumentative exchange as the collaborative construction of a macro argument Such a macro argument is both a joint product of the arguers and a complex structure representing the dialectical relationships between the individual arguments combined in it Finally the complementarity of the two approaches is addressed Thus the book can be described as an

exercise in adversarial collaboration      A practical study of argument, 7th ed. enhanced Trudy Govier, 2014      From Argument Schemes to Argumentative Relations in the Wild Frans H. van Eemeren, Bart Garssen, 2019-10-23 This volume comprises a selection of contributions to the theorizing about argumentation that have been presented at the 9th conference of the International Society for the Study of Argumentation ISSA held in Amsterdam in July 2018 The chapters included provide a general theoretical perspective on central topics in argumentation theory such as argument schemes and the fallacies Some contributions concentrate on the treatment of the concept of conductive argument Other contributions are dedicated to specific issues such as the justification of questions the occurrence of mining relations the role of exclamation argumentative abduction eudaimonistic argumentation and a typology of logical ways to counter an argument In a number of cases the theoretical problems addressed are related to a specific type of context such as the burden of proof in philosophical argumentation the charge of committing a genetic fallacy in strategic manoeuvring in philosophy the necessity of community argument and connection adequacy for arguments with institutional warrants The volume offers a great deal of diversity in its breadth of coverage of argumentation theory and wide geographic representation from North and South America to Europe and China      **Communication Catalog 2005** Neil Thomson, 2004-09      **Facts and Values** Stan van Hooft, 1995 The aim of this book is to assist students and nurse practitioners to acquire and develop the critical thinking skills required for ethical scientifically based nursing practice It provides a discussion which links the practical contexts and outcomes of thinking to nurses professional lives      **New York School Journal** ,1899      **The Medical Standard** ,1906      *The Eclectic Magazine* ,1881      *The Eclectic Magazine of Foreign Literature, Science, and Art* ,1881      *A Practical Course in Qualitative Analysis* James W.
