See how information technology intersects with health care. *Health Informatics An Interprofessional Approach* 2nd Edition prepares you for success in today's technology-filled healthcare practice. Concise coverage includes information systems and applications such as electronic health records, clinical decision support, telehealth, ePatients, and social media tools, as well as system implementation. New to this edition are topics including data science and analytics, mHealth principles of project management and contract negotiations. Written by expert informatics educators Ramona Nelson and Nancy Staggers, this edition enhances the book that won a 2013 American Journal of Nursing Book of the Year award. Experts from a wide range of health disciplines cover the latest on the interprofessional aspects of informatics, a key Quality and Safety Education for Nurses (QSEN) initiative and a growing specialty area in nursing. Case studies encourage higher level thinking about how concepts apply to real world nursing practice. Discussion questions challenge you to think critically and to visualize the future of health informatics. Objectives, key terms, and an abstract at the beginning of each chapter provide an overview of what you will learn. Conclusion and Future Directions section at the end of each chapter describes how informatics will continue to evolve as healthcare moves to an interprofessional foundation. NEW Updated chapters reflect the current and evolving practice of health informatics using real life healthcare examples to show how informatics applies to a wide range of topics and issues. **Hosting States and Unsettled Guests** Jennifer Riggan, Amanda Poole, 2024-02-06 As wealthy countries build walls to keep migrants out, countries in the Global South are celebrated for their hospitality towards refugees. *Hosting States and Unsettled Guests* asks the question: did these policies enable refugees to consider their new country home? Beginning in 2016, Ethiopia promoted local integration, economic

opportunities and access to education for refugees in order to encourage them to stay long term rather than migrate towards Europe But by 2020 a political overhaul and the outbreak of war in Northern Ethiopia foreclosed these opportunities particularly for Eritrean refugees in Ethiopia How did Eritrean refugees envision their future in light of the discrepancy between promising policies and ongoing instability Using ethnographic interviews and participant observation with government officials NGOs and refugees in three camps in northern Ethiopia and Addis Ababa Jennifer Riggan and Amanda Poole explore refugee notions of progress care hope and futurity Caught at the intersection of teleological violence and temporal agency refugees endure the present and tenaciously produce a sense of the future even when their efforts to progress are repeatedly challenged An important read Hosting States and Unsettled Guests makes key empirical and theoretical contributions in forced migration studies East African studies anthropology and international education Riggan and Poole deftly shift the focus of refugee studies away from Europe to regions in the Global South to understand the violence of emerging forms of migration deterrence
