Blue Latitudes Boldly Going Where Captain Cook Has Gone Before:

Blue Latitudes Tony Horwitz, 2002 Boldly Going Where Captain Cook Has Gone Before Two centuries after James Cook's epic voyages of discovery Tony Horwitz takes readers on a wild ride across hemispheres and centuries to recapture the Captain's adventures and explore his embattled legacy in today's Pacific Horwitz a Pulitzer Prize winner and author of *Confederates in the Attic* works as a sailor aboard a replica of Cook's ship meets island kings and beauty queens and carouses the South Seas with a hilarious and disgraceful travel companion an Aussie named Roger He also creates a brilliant portrait of Cook an impoverished farmboy who became the greatest navigator in British history and forever changed the lands he touched Poignant probing antic and exhilarating *Blue Latitudes* brings to life a man who helped create the global village we inhabit today

Into the Blue Tony Horwitz, 2002-01-01 Captain James Cook's three epic journeys between 1768 and 1779 were the last great voyages of discovery Sailing some 170 000 miles Cook's ships reached every continent and every ocean from the Arctic to the Antarctic from Kamchatka to Java to Easter Island to the coast of Oregon Before Cook set off one third of the world's map remained simply blank By the time he was done there was little left to discover Cook and his men were also among the first Europeans to encounter Pacific natives hip throbbing Tahitian dancers New Zealand cannibals Hawaiian surfers Australian Aborigines sealed off from the rest of the world for thousands of years Tony Horwitz vividly recounts these adventures and revisits the lands and peoples Cook discovered to explore the captain's legacy in today's Pacific Horwitz also has exotic and often comic adventures of his own on land and at sea including a stint as a working sailor aboard a replica of Cook's tall ship the *ENDEAVOUR*

Captain Cook's Final Voyage James K. Barnett, 2020-10-14 Maritime historian and researcher James K Barnett transcribed two extraordinary little known journals from Captain James Cook's third exploratory voyage They offer remarkable eyewitness accounts at the time of initial European contact the first reasonably accurate maps of North America's west coast the earliest comprehensive report from the Bering Sea ice pack and the dramatic story of Cook's death at Kealahou Bay Astonishing for accounts of landings along Hawaii i Vancouver Island and Alaska both chronicles languished in Australian archives for over a century Barnett adds context and commentary to complete the story Commissioned by the British Admiralty Cook set sail in July 1776 to confirm the outline of North America's Pacific coastline and search for the elusive Northwest Passage The expedition's sailing ships the *Resolution* and the *Discovery* traveled to the South Seas then chanced upon the Hawaiian Islands before reaching the Oregon coastline and the Arctic Cook chose to winter in the Hawaiian archipelago where he died in a skirmish His crews made a second attempt to find the coveted route then returned to England after more than four years at sea James Burney was first lieutenant on the *Discovery* Active in shore parties and chart preparation he saw Cook's death from the ship's deck One of the few accounts from the consort vessel his writing provides new details and important thoughtful impressions of North and South Pacific people and places Working under the notorious William Bligh Henry Roberts was Master's Mate on the *Resolution*

performing essential hydrographic and cartographic tasks He was a few feet away when Cook was killed His well illustrated logbook includes coordinates tables of routes and records of weather at sea but also lively accounts of shore excursions Illustrations include maps and drawings as well as images by the expedition's official artist John Webber

Fur, Fortune, and Empire Eric Jay Dolin, 2011-07-05 A Seattle Times selection for one of Best Non Fiction Books of 2010 Winner of the New England Historical Association's 2010 James P Hanlan Award Winner of the Outdoor Writers Association of America 2011 Excellence in Craft Award Book Division First Place A compelling and well annotated tale of greed slaughter and geopolitics Los Angeles Times As Henry Hudson sailed up the broad river that would one day bear his name he grew concerned that his Dutch patrons would be disappointed in his failure to find the fabled route to the Orient What became immediately apparent however from the Indians clad in deer skins and good furs was that Hudson had discovered something just as tantalizing The news of Hudson's 1609 voyage to America ignited a fierce competition to lay claim to this uncharted continent teeming with untapped natural resources The result was the creation of an American fur trade which fostered economic rivalries and fueled wars among the European powers and later between the United States and Great Britain as North America became a battleground for colonization and imperial aspirations In *Fur Fortune and Empire* best selling author Eric Jay Dolin chronicles the rise and fall of the fur trade of old when the rallying cry was get the furs while they last Beavers sea otters and buffalos were slaughtered used for their precious pelts that were tailored into extravagant hats coats and sleigh blankets To read *Fur Fortune and Empire* then is to understand how North America was explored exploited and

settled while its native Indians were alternately enriched and exploited by the trade As Dolin demonstrates fur both an economic elixir and an agent of destruction became inextricably linked to many key events in American history including the French and Indian War the American Revolution and the War of 1812 as well as to the relentless pull of Manifest Destiny and the opening of the West This work provides an international cast beyond the scope of any Hollywood epic including Thomas Morton the rabble rouser who infuriated the Pilgrims by trading guns with the Indians British explorer Captain James Cook whose discovery in the Pacific Northwest helped launch America s China trade Thomas Jefferson who dreamed of expanding the fur trade beyond the Mississippi America s first multimillionaire John Jacob Astor who built a fortune on a foundation of fur and intrepid mountain men such as Kit Carson and Jedediah Smith who sliced their way through an awe inspiring and unforgiving landscape leaving behind a mythic legacy still resonates today Concluding with the virtual extinction of the buffalo in the late 1800s *Fur Fortune and Empire* is an epic history that brings to vivid life three hundred years of the American experience conclusively demonstrating that the fur trade played a seminal role in creating the nation we are today
