Blurred Line Dance Step Sheet:

Blacksound Matthew D. Morrison, 2024-03-05 No book from this past year better explains American popular music than professor Matthew Morrison's *Blacksound*. A Rolling Stone Best Music Book of 2024. A new concept for understanding the history of the American popular music industry, *Blacksound* explores the sonic history of blackface minstrelsy and the racial foundations of American musical culture from the early 1800s through the turn of the twentieth century. With this namesake book, Matthew D. Morrison develops the concept of *Blacksound* to uncover how the popular music industry and popular entertainment in general in the United States arose out of slavery and blackface. *Blacksound* as an idea is not the music or sounds produced by Black Americans but instead the material and fleeting remnants of their sounds and performances that have been co-opted and amalgamated into popular music. Morrison unpacks the relationship between performance, racial identity, and intellectual property to reveal how blackface minstrelsy scripts became absorbed into commercial entertainment through an unequal system of intellectual property and copyright laws. By introducing this foundational new concept in musicology, *Blacksound* highlights what is politically at stake for creators and audiences alike in revisiting the long history of American popular music.

Experimentation and the Lyric in Contemporary French Poetry Jeff Barda, 2019-10-17

Experimentation and the Lyric in Contemporary French Poetry offers a new theoretical approach and historical perspective on the remarkable upsurge in creative poetic practices in France that have challenged traditional definitions of poetry and of the lyric. Focusing on the work of Pierre Alferi, Olivier Cadot, Emmanuel Hocquard, Franck Leibovici, Anne Portugal, and Denis Roche, this book provides an analysis of the most influential poets in French poetry of the last few decades. It contextualizes the theoretical models that inform their investigations, analyzing them alongside the history of the avant-garde and the heated theoretical debates that have taken place over whether to continue or bring an end to the lyric. Systematically addressing the various strategies employed by these poets and drawing on reception theory and cognitive studies, Jeff Barda argues that French radical poetics re-evaluates the lyric in cognitive terms beyond the personal. This book is essential reading for anyone interested in twenty-first-century forms of experimental writing and the connections between literature and the arts today.
