Blood Lawrence Hill, 2013-09-28 Selected for The Globe 100 Books in 2013 With the 2013 CBC Massey Lectures bestselling author Lawrence Hill offers a provocative examination of the scientific and social history of blood and on the ways that it unites and divides us today Blood runs red through every person's arteries and fulfills the same functions in every human being The study of blood has advanced our understanding of biology and improved medical treatments but its cultural and social representations have divided us perennially Blood pulses through religion literature and the visual arts Every time it pools or spills we learn a little more about what brings human beings together and what pulls us apart For centuries perceptions of difference in our blood have separated people on the basis of gender race class and nation Ideas about blood purity have spawned rules about who gets to belong to a family or cultural group who enjoys the rights of citizenship and nationality what privileges one can expect to be granted or denied whether you inherit poverty or the right to rule over the masses what constitutes fair play in sport and what defines a person's identity *Blood The Stuff of Life* is a bold meditation on blood as an historical and contemporary marker of identity belonging gender race class citizenship athletic superiority and nationhood

The Black Atlantic Reconsidered Winfried Siemerling, 2015-05-01 A survey of English and French black Canadian writing and its transnational connections from the eighteenth century to the present

Blood Lawrence Hill, 2014-06-05 It's everywhere from the laws of citizenship to the detection of doping in sport from the books of the Old Testament and the acts of Macbeth to the mudbloods of Harry Potter and the vampires of Twilight Blood fills our imagination just as fully as it fills our veins In this provocative exploration of the medical and social history of blood from ancient times to today award winning novelist Lawrence Hill considers blood's scientific cultural psychological and political aspects He charts how our understanding of blood has developed over the centuries sharing a close up view of William Harvey's bloody dissection table at which the seventeenth century physician shocked his peers using a live dog to prove that blood circulates But blood isn't just about the body and Hill also reveals how ideas about blood purity have spawned rules on who gets to belong to a family who enjoys the rights of citizenship and what defines a person's identity As Hill powerfully and lyrically conveys blood counts in virtually every aspect of our being that matters
